SATURNIA

(Patent No. 349)

A new outstanding glorious Rose which should be in every garden. The face of the large petals is a very brilliant cardinal-red, while the reverse is salmon-gold and copper, creating a warmth of color difficult to describe—still more difficult to forget. By all means have a Saturnia in your garden.

Each \$1.50 3 for \$3.95

See page 22 for other outstanding Patented Rose varieties.

Neosho **NURSERIES CO.**

Neosho, Missouri

NEOSHO GUARANTEE

1. **True to name** stock is our unqualified guarantee. We will replace without charge, or refund purchase price if any proves otherwise.
2. "Yours for Growing Satisfaction" is our slogan. Hence we **guarantee highest quality** and arrival in good condition. Examine shipment carefully on arrival. Any complaints made within **ten days** will be cheerfully adjusted to your satisfaction. We will either refund purchase price or replace stock, as you prefer.
3. Despite every precaution in shipping, handling and planting, there are occasional losses, even with the best of stock, over which none of us have any control. Hence we offer to help you by sharing your loss. We will replace at one-half price any stock that fails to grow, if you will **report by July 1st**, following planting. Accompany your report with remittance figured at one-half price.

DIRECT FROM GROWER TO YOU

Direct from our 400-acre factory of Missouri's most fertile Hagerstown silt loam especially suited for producing clean, strong, healthy vigorous root systems.

New and Improved Varieties. Neosho Nurseries offers for your selection the widest assortment of new and improved varieties, with thousands of specimens of each item.

Trial Grounds and Test Orchards. Every new variety is thoroughly tested before offering them to our customers to find if they are suitable to soil and climatic conditions and how hardy, productive and resistant to disease.

WE GROW TREES AND PLANTS BY THE MILLIONS

Vitality and Vigorous Condition is assured by transporting

all trees and plants from field to storage in specially constructed covered, air-tight trucks. We guarantee highest quality and arrival in good condition.

TERMS

All orders are f. o. b. Neosho unless otherwise specified in catalog. 10% deposit with order, balance when you are ready for shipment. Orders less than \$10.00 must be accompanied by full cash with order. We prefer to ship by Express as they insure satisfactory service. You pay only actual transportation on arrival.

Please do not specify Parcel Post unless you have no nearby Express Station. If necessary to specify Parcel Post shipment, add 10% to your remittance to cover postage. On orders under \$5.00 add 15%. Missouri customers please add 2% to cover Missouri Sales Tax.

Plant Neasha STRAWBERRIES

All varieties offered are self-pollenizing. Since best results are obtained from spring planting, we ship all berries in spring only.

STREAMLINER. Everbearing Strawberry. Without question the outstanding everbearing Strawberry. Very large berries of rich red color and the finest flavor and quality of any Strawberry. Starts bearing 60 to 90 days after planting and you will have berries right up to heavy frosts. It is a heavy bearer and is self pollenizing. We recommend this everbearer anywhere—it has everything, large size, excellent flavor, good color, and is a heavy bearer. Be sure and plant some Streamliner—the best there is.

25 for 3.50	100 for 10.95	1000 for 69.50

BLACKBERRIES

EARLY HARVEST. Ripens early, with glossy jet-black berries of medium size and excellent quality. Heavy bearer and very hardy. Ripens early ahead of dry weather.

10 for \$1.50	50 for \$5.50	200 for \$17.50
25 for 2.95	100 for 9.75	500 for 34.50

ELDORADO BLACKBERRY. The hardiest, best quality Blackberry. Thrives on poor soil. Large, firm, sweet-flavored berries, almost coreless. Ripens over a long period. A heavy regular bearer.

10 for \$1.50	50 for \$5.50	200 for \$17.50
25 for 2.95	100 for 9.75	500 for 34.50

MCDONALD HYBRID BLACKBERRY. Very early. A Blackberry-Dewberry hybrid. It is large, oblong, very good quality; drought resistant, vigorous grower. Plant in rows 8 to 10 feet apart. The vines trail on the ground the first season like Dewberry, but grow upright the next year. We will include with each 25 McDonald plants 5 plants FREE of Early Harvest for cross pollination. Plant every 4th or 5th plant for heavy fruiting. Our supply on these is quite limited, and in case we are sold out when we receive your order we will furnish Early Harvest in its place.

25 for \$3.50	100 for \$10.95
50 for 6.95	200 for 19.95

Lucretia Dewberry

The best variety with berries much larger than common sorts. They are jet-black, deliciously sweet and ripen ten days earlier than Blackberries. They are thrifty growers, hardy, practically free from disease.

10 for \$1.50	50 for \$5.50	200 for \$17.50
25 for 2.95	100 for 9.75	500 for 34.50

VAN FLEET Red Raspberry

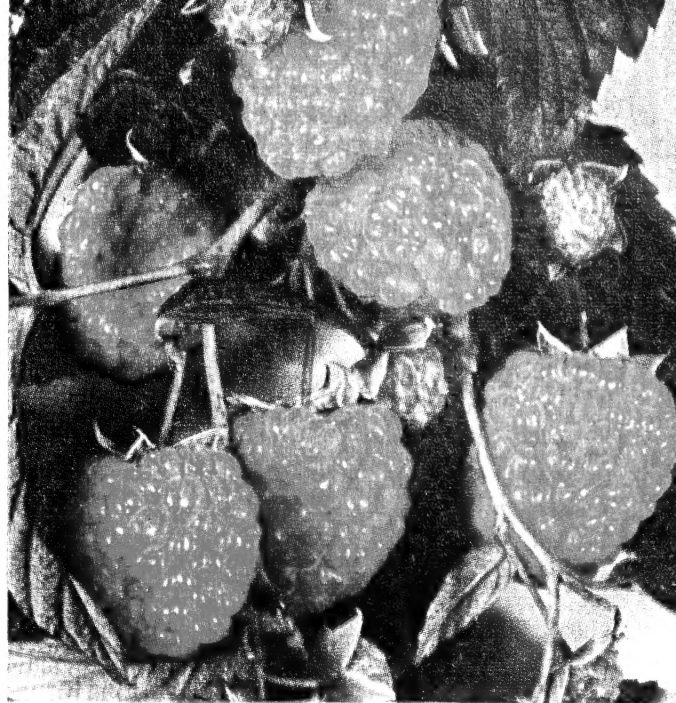

The Red Raspberry of all Red Raspberries for middle west and south, as it will produce heavy crops even in hot, dry locations. A thrifty grower and practically free from plant disease. Makes big, heavy canes which stand upright without support, and which produce its light red berries in enormous quantities. Ripens later than any other Red Raspberry. Even though you've tried growing Red Raspberries without success, you can grow these. Be sure and try some. The one Red Raspberry for the south and the best for Arkansas, Oklahoma, Kansas, Missouri, and similar latitudes.

10 for \$1.95	50 for \$ 6.75
25 for 3.75	100 for 11.95

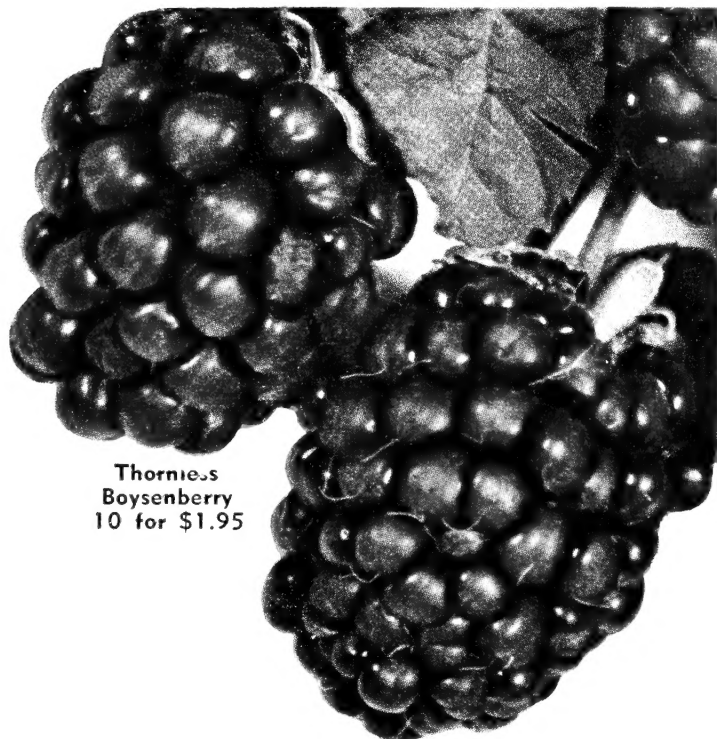

FINEST **RASPBERRIES**

INDIAN SUMMER. Everbearing Red Raspberry. Introduced by New York Experiment Station, it is proving more satisfactory and attaining universal popularity each year. Many are planting Indian Summer as a one-crop variety, because of its vigor and large size, fine flavored berries, ripening before Chief. Berries are much larger than other everbearing types and of excellent quality. The summer crop ripens very early; the autumn crop from September until frost.

WHITE VARIETIES

DIAMOND. It is the hardiest, most productive and vigorous of the green grapes. It deserves a high place among the best for commercial and home vineyards. Blooms midseason.

NIAGARA. The most widely planted green Grape. Larger bunches and berries than Concord, as good or better quality. Productive, vigorous, adaptable. Ripens about with Concord. Blooms midseason.

PORTLAND. Earliest of varieties to ripen. Large white fruit, spicy, luscious flavor. A very hardy, popular, money-making variety. Usually ripens a few days ahead of Fredonia. The amber-white color makes it one of the most popular varieties.

RED VARIETIES

AGAWAM. The most widely grown of the red Grapes. Large, rich, sweet, and aromatic. Ripens after Concord.

DELAWARE. The standard of quality in red Grapes, with compact clusters of small berries of deliciously sweet flavor. Ripens with Concord and is perfectly hardy.

BLUE VARIETIES

CONCORD. The most widely planted Grape. Superior in hardiness, productivity and regularity in bearing and in ability to withstand disease and insects. The leader for making Grape juice.

FREDONIA. A new Grape which experts and most growers say will soon become the leading black Grape in America. It ripens early, 10 days before Moore's Early. Berries are large, very juicy, delicious flavor. Vigorous, productive, unusually hardy. Will produce 50% more pounds per vine than Concord.

MOORE'S EARLY. The most widely planted early commercial Grape. Ripens 2 weeks earlier than Concord. Good quality. It is best described as an early Concord. Blooms midseason.

SHERIDAN. (Blue.) A new blue-black Grape that ripens a week after Concord. It has an even sweeter and richer flavor. Berries are very large, and the vine is an unusually heavy bearer. This is considered a choice Grape by experts and commercial growers. Can supply Sheridan in 1-yr. vines only.

PLANT **NEOSHO**

IMPROVED VARIETIES - EARLY

New and improved varieties of Peaches have been the biggest forward step in the nursery business. **Improved quality** and appearance means ready sale at higher prices. **Improved hardiness** means heavy crops year after year. Plant Neosho trees for greater profits. There is always a heavy demand for our improved varieties. Please send in your orders early. We often sell out of some varieties long before spring shipping and planting season is over.

NEOSHO HALE

(Yellow Freestone.) Very large in size; beautiful yellow overlaid with red, and has a firm, fine-grained yellow flesh of good quality. It colors up a week before maturity. Ripens August 5th just ahead of Elberta. Very firm, solid meated. Stands long shipment. Brings highest prices on every market. See illustration.

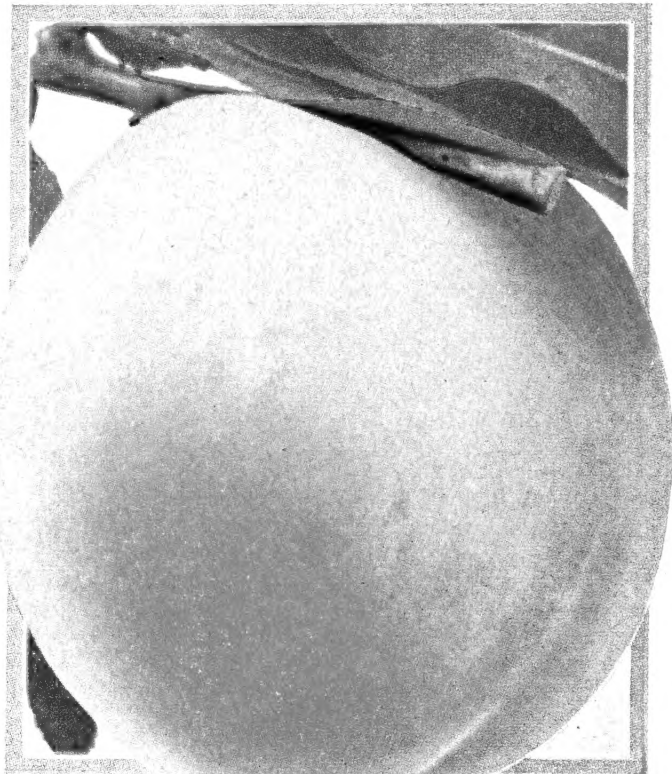

Neosho
J. H. Hale

BELLE OF GEORGIA

(White Freestone.) An unusually large Peach. Creamy white blushed with red; good quality. A favorite with commercial growers. Very hardy, vigorous and productive. The most popular and widely planted white Peach. Ripens August 1st. See illustration.

RED GAGE ELBERTA

A wonderful improved bud sport of the Elberta Peach, which we recommend most highly. Ripens 3 to 5 days after standard Elberta. Is of wonderful size and improved color. Most outstanding feature of this Peach is its resistance to disease and hardiness in bud; crops every season. See illustration.

Belle of Georgia

Dates of ripening given in descriptions of the different varieties are those of the latitude of Neosho, which is in southwest Missouri.

"Yours for Growing Satisfaction"

Tulsa, Oklahoma,
March 11, 1944.

Received my order of fruit trees today and can say they are the finest bunch of trees I've ever seen, and thanks for the shrubs. Last year I ordered 155 trees from you and 154 grew, and then in May the floods came and then it never rained again until late September, which was a record breaker, but through all of this I lost only 21 trees, and was not equipped to water a single one of them. These same trees, which were not able to make much growth, are now loaded with buds and bloom, which shows the bearing quality of your trees. Again thanking you, I remain,

Yours sincerely,

WALTER VOGT.

Red Gage
Elberta

PEACHES

BEARERS - HEAVY PRODUCERS

HALE-HAVEN

A magnificent cross between the wonderful quality of J. H. Hale and the hardiness of South Haven. Originated at Michigan Experiment Station. A most desirable commercial variety, steadily gaining favor because of wonderful size, color, and shipping qualities, hardiness of bud and vigor of tree. A profit-making variety you cannot afford to overlook. Ripens August 1st. See illustration.

NEOSHO EARLY ELBERTA

Our own special strain of Early Elberta that we have fruited for years and subjected to every test and found it a money maker wherever grown. Ripens 5 days ahead of Elberta. A smooth skinned Peach, yellow background with crimson blush, of a smooth rich flavor much more pleasing in taste than Elberta.

NEOSHO STANDARD ELBERTA

(Yellow Freestone.) Midseason. The most widely planted commercial Peach. Very large, golden yellow with red cheek. Tree is very productive, yields large quantities of uniform, highly colored fruit. Can be shipped or hauled to distant markets. Ripens August 10th to 15th.

Hale-Haven

REDHAVEN

A smooth-skinned almost fuzzless, early yellow freestone Peach, completely encompassed with brilliant red. Ripens uniformly, early in July. Tree is vigorous and bears so heavily, fruit should be thinned to increase size. See illustration.

Redhaven

GOLDEN JUBILEE

A beautiful yellow freestone Peach ripening 25 days ahead of Elberta, about July 15th. Good size and quality. Originated by New Jersey Experiment Station. One of the best shippers of the early varieties. Plant Golden Jubilee trees this year, and you will have these hardy yellow freestone Peaches bearing for you in two to three years. See illustration.

Golden Jubilee

"Yours for Growing Satisfaction"

Mansfield, Mo.,
December 5, 1946.

Dear Sirs:
The trees arrived in good condition, and I also received refund in postage. I like to deal with honest people, and I feel I am safe in recommending you as such.
Respectfully,
SAM E. FRY.

Peach Prices—All Varieties

2-3 ft.	.60	.50	.40	.37

Neosho PEACHES

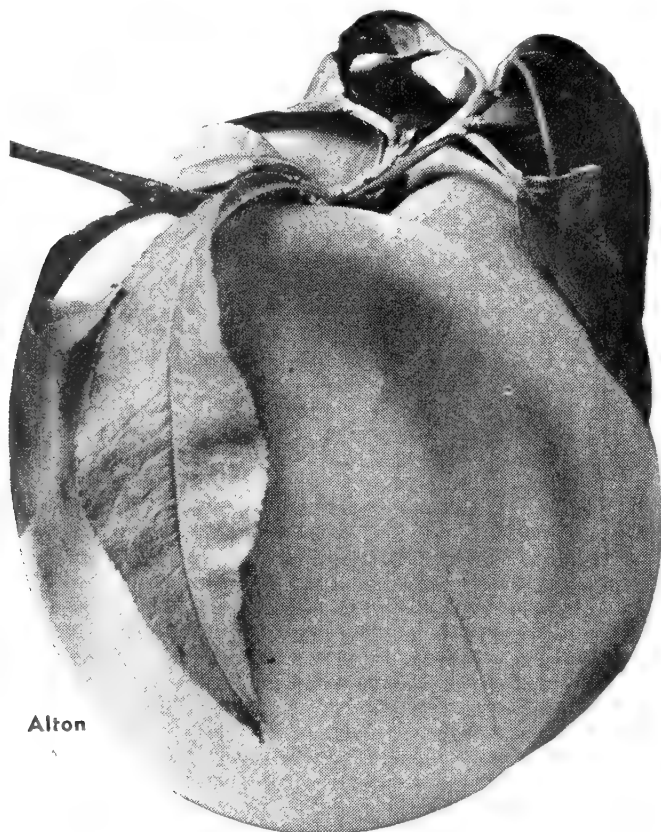

Dates of ripening given in descriptions of the different varieties are those of the latitude of Neosho, which is in South Missouri.

FAIR'S BEAUTY. Hardiness, great beauty, high quality, recommended this Peach for all sections. Unrivalled as an early canning variety. An early Peach. You can hardly distinguish it from Elberta in size and quality, but it ripens July 10th, 30 days ahead of Elberta. Tree vigorous, spreading, very hardy in bud, often producing a crop when other varieties are winter-killed. Fruit is medium to large in size; skin a deep golden yellow blushed with bright red; flesh is firm, tender, melting and juicy. Freestone, clinging slightly when the Peach is hard ripe. See illustration.

NEOSHO EXTRA EARLY ELBERTA. The earliest of the Elbertas, ripening about July 5th. A rich golden yellow freestone of delicious flavor. A heavy bearer.

Fair's Beauty

Alton

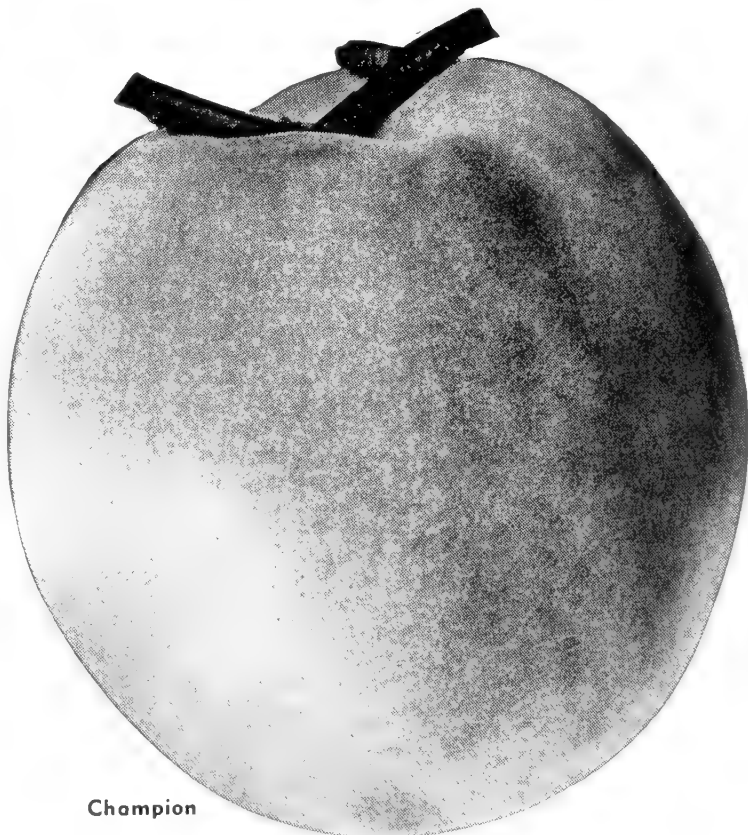

ALTON. This Peach, in our own orchard, has proven one of the hardiest, most profitable of the Belle of Georgia type. It is a semi-cling, white Peach with a beautiful red blush. You'll have a crop of Alton whenever seedlings bear. Ripens about July 15th. The tree is strong, stocky, good grower, well branched, and it is an extremely good, regular bearer. See illustration.

FRANKS. (Clingstone.) Fine flavored, large, solid meated, yellow cling covered with red, ripening about 5th of September. The fruit is beautifully blushed, firm, rich, most delicious flavor. You will find Franks a very superior Peach because of its size, beautiful color, high quality, and high production. Very fine for pickling and preserving.

CHAMPION. (White Freestone.) Midseason. An exceptionally high quality, attractive, hardy white Peach. It has a peculiar honeyed sweetness; ideal for home use and local markets. One of the oldest and most desirable; has long been considered the standard of quality in white Peaches. Ripens August 1st. See illustration.

INDIAN BLOOD. (Clingstone.) Late. An old-fashioned favorite of fine flavor. Flesh is blood-red color. Wonderful for canning, pickling and preserving.

RED BIRD. (Clingstone.) An unusually large, early commercial variety. Very firm and ships well. Creamy white, covered with bright red. Ripens July 1st.

Champion

"Yours for Growing Satisfaction"

Kansas City, Mo.,
February 7, 1946.

Gentlemen:

I am very much sold on your fruit trees and I have proof of it on my farm in Cedar County, Missouri.

I have not lost a single tree that I got from your firm, and all I got from your firm are away ahead of the others so far that it would make you laugh, if it was something to laugh about, but I can't laugh about it. I just kick myself. That is enough proof for me.

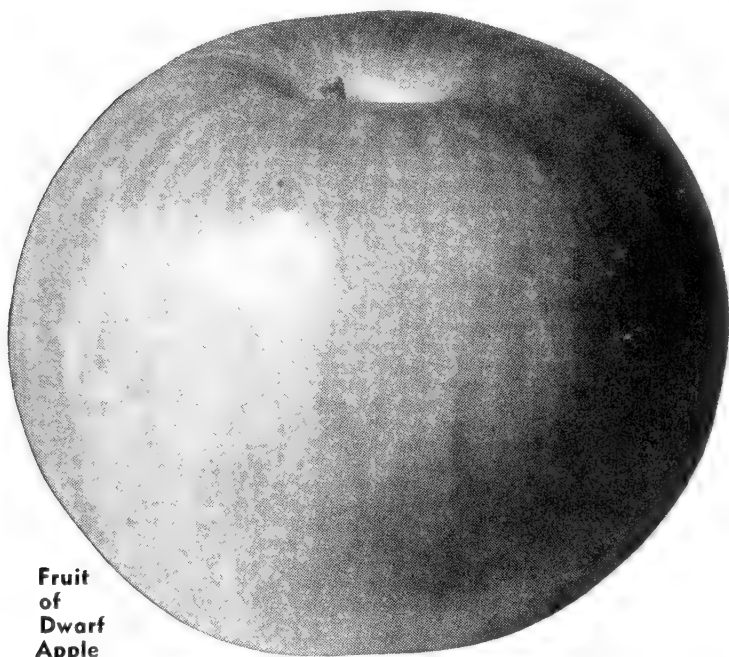

Yours truly,
JOHN L. MASTERS.

DWARF APPLE TREES

The Ideal Tree for Every Home Orchard

Dwarf Apple trees are highly prized for the small gardens where space is limited, as they can be planted 10 to 12 feet apart. The fruit produced is large, or larger than that from standard trees, and start producing fruit the first or second year after planting.

Our stock is all budded on the famous Malling Root Stock, No. 1 and No. 9, to insure a permanently dwarf tree. Trees are only 10 feet high at maturity. They may be used wherever a flowering tree is wanted, as they are also extremely decorative in the spring when full of bloom. Remember the trees are dwarf in size, but they will bear full size fruit in great abundance.

Fruit
of
Dwarf
Apple

HARDY VIRGINIA UNDERSTOCK

(For Top Working)

The Iowa State Experiment Station at Ames, Iowa, has conducted experiments over a period of years to try and improve hardiness, productivity, and early bearing of different apple varieties. Best results were obtained by using Virginia Crab understock and top working trees, so we have grown these understocks for that purpose and offer them in the following grades and at same prices as other Apples:

	Each	5 Each	25 Each	100 Each
2-yr., Super X	\$1.75	\$1.65	\$1.50	
2-yr., 11/16 in., 5-7 ft.	1.25	1.15	1.00	\$0.90
2-yr., 9/16 in., 4-6 ft.	1.00	.90	.80	.70
2-yr., 7/16 in., 3-5 ft.	.80	.70	.55	.50
3-4 ft.	.70	.60	.50	.45
2-3 ft.	.60	.50	.40	.37

(Write for prices on larger quantities.)

"Yours for Growing Satisfaction"

Denver 6, Colorado,
April 23, 1947.

Neosho Nurseries Company,
Neosho, Missouri.

Gentlemen:

As usual I received a very wonderful shipment of fruit trees from you, arriving on schedule with no damage in transit.

The apples were very well equipped with excellent root systems and undoubtedly are from the best producers and quality apples.

Keep up the good work as I think you are the best when it comes to furnishing fruit trees with a good root system. The grafts on the apples were perfect. Best wishes.

Yours very truly,
H. E. WOODRING.

NEW OUTSTANDING VARIETIES

These varieties are considered the finest, **heavy producing** strains, and Neosho Nurseries have always been one of the leaders in the production of hardy, money-making Apple tree varieties. You buy with confidence when you buy Neosho Apple improved varieties. Plant these summer, fall, and winter Apples. Then you can have Apples almost the year round.

RUBY RED ROME. An improved Red Rome Beauty, identical in vigor and production. Color of fruit much brighter and a solid red. Produces much higher percentage of fancy apples. Bears at an early age. Tree is a vigorous, strong grower. Because it blooms a week or ten days after other varieties it more often escapes spring frost. See illustration.

Dark Red Jonathan

NEOSHO APPLES

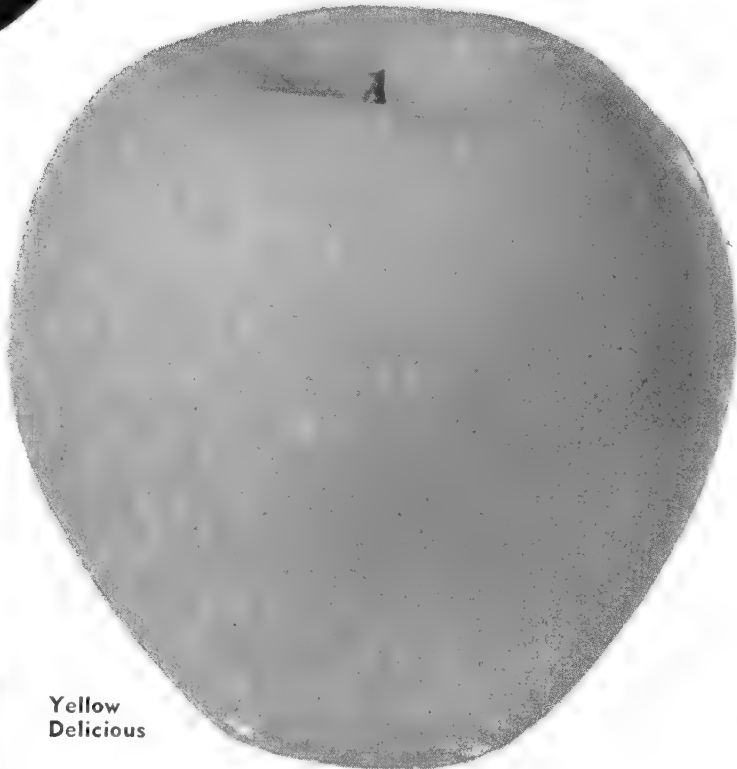

Large commercial orchardists depend upon Neosho Nurseries Company for new and improved true-to-name varieties.

We have long had a reputation for supplying trees that produce profitable, productive orchards that we are zealous to maintain. Let us help you to "Growing Satisfaction."

(Write for prices on larger quantities.)

Yellow
Delicious

YELLOW DELICIOUS. Popular, big, beautiful, golden yellow Apple. Has a wonderful flavor, excellent quality, firm flesh, and ripens fast. Tree begins bearing at a very early age and is a vigorous grower so that a six-year-old tree can have 5 or 6 bushels of Apples, and a 15-year-old tree 20 to 25 bushels. Brings highest price and is in demand on every market. See illustration.

DARK RED JONATHAN. You increase your profits when you plant Dark Red Jonathan. This is an improved strain of Jonathan, **and the most profitable Apple obtainable.** The Dark Red Jonathan attains a brilliant red color 2 weeks before ripening, and this, in turn, gains the advantage of higher market prices for the grower. Early marketing also eliminates windfalls. See illustration.

SUMMER CHAMPION. A late summer or early fall Apple. Large, attractive, red, and of fine quality. Tree is hardy and a heavy bearer.

GIVE BEST RESULTS

RED WILLOW TWIG. (New Improved Strain.) A new selected sport of Willow Twig of larger size, very uniform and symmetrical, and unexcelled color, originating in western Illinois. Keeps in storage until May without scalding or breaking down. A most popular profitable winter variety for commercial growers.

YELLOW TRANSPARENT. (Early Summer.) Extra early Apple; medium size, a beautiful clear yellow; smooth, waxy, brilliant skin. Unexcelled for pies, tarts, and Apple sauce. Tree extremely hardy, upright, compact grower; often used as a filler; reliable cropper.

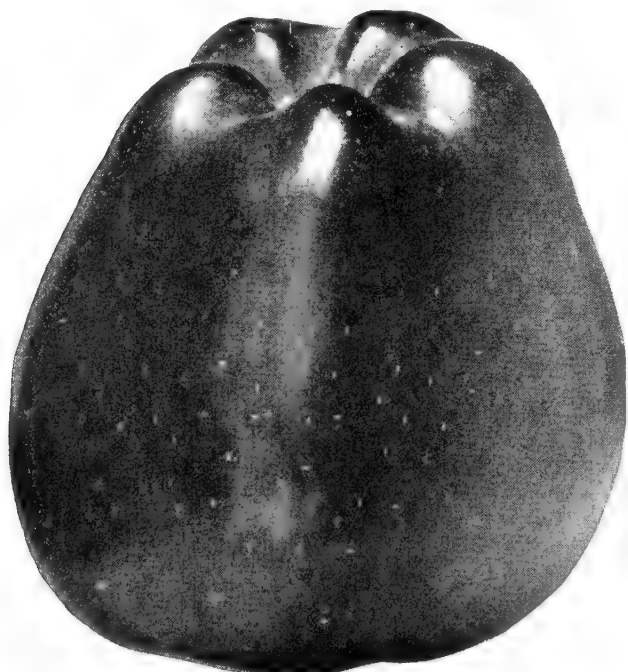

WEALTHY. (Late Summer.) A most dependable and widely planted late summer Apple; bright red striped; medium to large size; ripens over a long season. Very good quality. Tree upright grower; often used as a filler; very hardy; bears young.

IMPROVED WINESAP. An improved strain of one of the oldest and most popular Apples; a good shipper and an exceptionally good keeper in ordinary and cold storage. Splendid bright red, and indistinctly striped with dark purplish red; good quality. Medium size; hardy; a heavy, regular bearer.

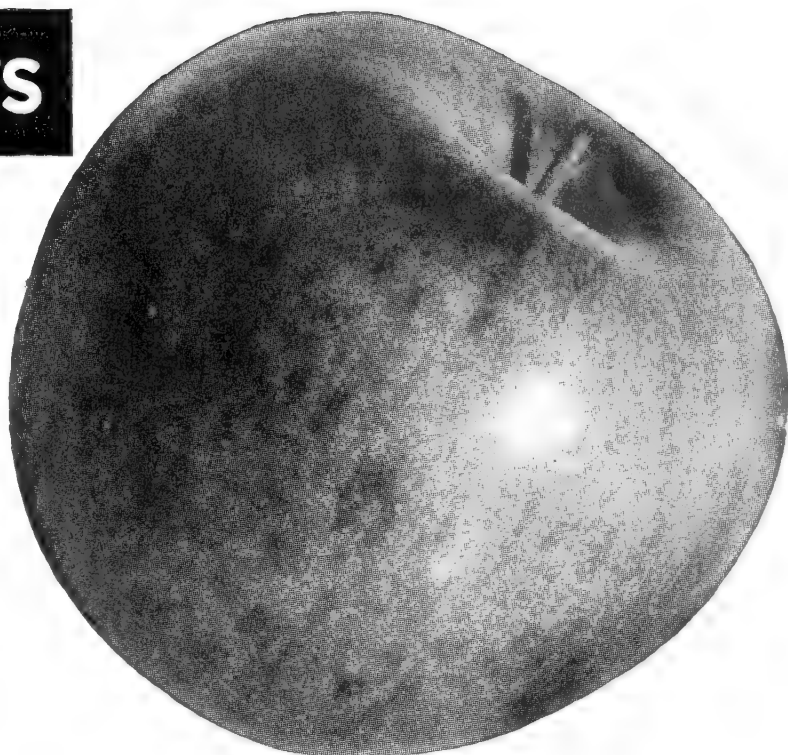

WHETSTONE. The Missouri Fruit Experiment Station put in 40 years' time and effort crossing Jonathan and Ben Davis to develop an Apple with Jonathan quality and Ben Davis productiveness and keeping qualities. Out of 600 crosses **this Apple is their first choice** from a profit standpoint. It fills up the barrel or basket with large, high-colored Apples that will hang on the tree to Christmas, if necessary, and keep until spring.

YORK IMPERIAL. (Winter.) Bright pin-striped with dark red; fair quality. Its oblique or lop-sided shape is a notable characteristic. A very heavy bearer. Easy to handle. Good keeper in dry storage.

BLOOD-RED DELICIOUS. Has all of the good qualities of the common Delicious, but colors out a deeper red, and 2 to 3 weeks before the common Delicious begins to take color. This means earlier profits and bigger profits for the grower because earlier picking, earlier marketing, and more **extra fancy grade**, with little or no windfalls, and color to get the best prices.

Dark Red Delicious

Turley Winesap

DARK RED STAYMAN. Everyone is familiar with the wonderful, early coloring qualities of the Red Stayman. The Neosho Dark Red Stayman is a marvelous improvement over many Stayman Apples; has more color and keeping qualities. It is solid dark red, which makes it a universal favorite.

GOLDEN LODI. New Improved Transparent. Has been thoroughly tested and meets every requirement of an outstanding early Apple for quality, productiveness, and profit. A large waxy Apple of clear transparent color. Flesh is firm and skin thick. Keeps and ships unusually well for an early variety. **Twice** the size of **Transparent**, and the tree is a vigorous spreading grower. It ripens July 1st.

TURLEY WINESAP. A truly fine quality Apple of the Stayman type, which positively does not skin crack. A beautiful red color. This is Indiana's greatest gift to the Apple industry and their most precious crop. You, too, will find it a profit maker. See illustration.

ANOKA. The Old Folks Apple. The second year, big, full-sized crop; earliest and heaviest bearing Apple. Hardy in all climates; **never winter-kills**. Can be grown anywhere in the United States. Ripens in August but can be used a month earlier. Apples are good sized, well-formed, beautifully colored. Has proven to be one of the very best summer Apples for all purposes.

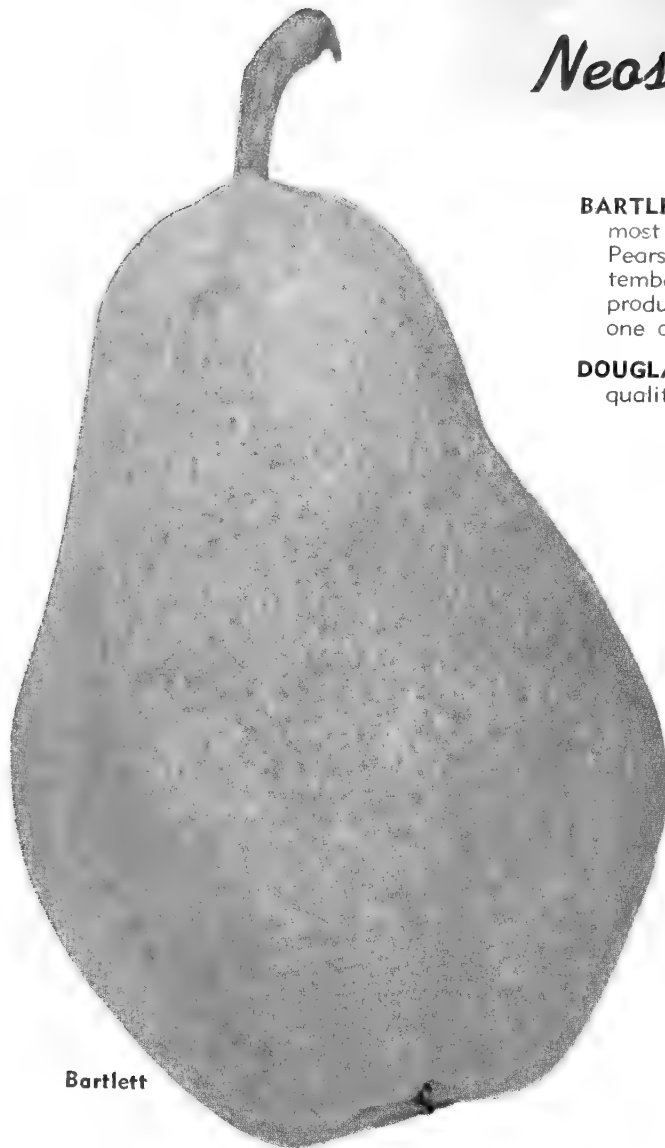

BLACK BEN. (Winter.) The best of the Ben Davis family. It attains a much higher color than Ben Davis or Gano. The tree is hardier, more vigorous and more prolific than Ben Davis. Fruit is large, solid dark red.

GRIMES GOLDEN. A fine quality yellow Apple; a rich golden color, fine flavor and aroma, an ideal dessert Apple and an equally fine cooker. You cannot go wrong on this beauty because it is a definitely profitable Apple, easy to grow, hardy and prolific bearer.

DUCHESS. Attractive yellow Apple with red stripes; medium size. **Profits are larger.** One of the most profitable summer varieties. Bears young.

Neasha APRICOTS and PEARS

Easy to Grow

Bartlett

BARTLETT PEAR. (Late Summer.) The leading commercial variety; one of the most popular for dessert and canning. Found on all grocery shelves, as canned Pears, and the fresh fruit is available at all fruit stands in August and September. Flesh is white, fine grained, juicy and sweet. Tree is vigorous, very productive, hardy, bears young. Here in the Ozark country Bartlett has proven one of the most popular money-making varieties. See illustration.

DOUGLAS PEAR. (Early Fall.) Douglas is a large, handsome Pear of Bartlett quality that ripens in early fall and comes into bearing the second or third year. Golden yellow, flushed with pink; tender, juicy, excellent flavor. Douglas is that outstanding Pear for the central west. It is blight proof, very resistant to dry weather, and if your bloom is killed by spring frost, will send out a new set of blossoms on the new wood and set a crop of fruit, so you will have Pears every year on Douglas.

KIEFFER PEAR. (Winter.) Large, yellow, russeted; flesh white, rather coarse. A market and kitchen variety that succeeds farther south where other varieties fail. Tree hardy, very vigorous, resistant to blight. Blooms early.

LINCOLN PEAR. (Summer.) Large, yellow; quality good to very good; similar to Bartlett, but more resistant to blight. Succeeds farther south than Bartlett can be grown. It has stood the severest tests of intense, moist summer heat and low altitude of the climate of Lincoln, Illinois, where it was originated by W. E. Jones. Comes into early bearing and bears heavy crops annually; very hardy. Blooms mid-season.

PEAR PRICES

	Each	5 (Each)	25 (Each)	100 (Each)
4-5 ft.	\$1.75	\$1.65	\$1.55	\$1.50
3-4 ft.	1.40	1.30	1.25	1.20
2-3 ft.	1.15	1.05	1.00	.95

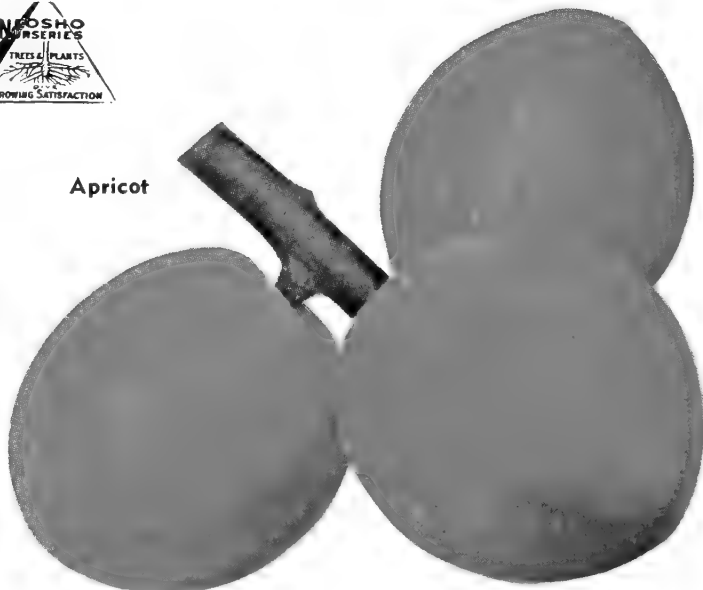

Neasha APRICOT

New Improved Strain Hardy Superb Apricot

Such a delightful luscious fruit as the Apricot really should be planted more than it is, since it ripens just after the early Cherries, and before the best Peaches. Apricots will stand more winter cold than Peaches, though they bloom so early they are more apt to be injured by spring frost. A northern or eastern slope is best so the opening of the buds will be retarded and the danger of frost damage lessened. See illustration.

	Each	5 (Each)	25 (Each)	100 (Each)
1 1/16 in.	\$2.00	\$1.90	\$1.80	\$1.75

3-4 ft.	1.40	1.30	1.25	1.20
2-3 ft.	1.15	1.05	1.00	.90

Apricot

Wonderful SEEDLESS PEAR

Bears Young - Blight Resistant - Coreless

A new fruit sensation. A Pear without seeds or core; all sweet, juicy flesh; a great producer; excellent quality, good size; hardy. Tree bears young, ripens 10 days after Bartlett; self pollenizer. Fruit is a large, beautiful golden yellow with blush. Flesh is tender, sweet, juicy and delicious. Fine to eat fresh and ideal for cooking. See illustration.

	Each	5 (Each)
4-5 ft.	\$2.25	\$2.00
3-4 ft.	1.90	1.75
2-3 ft.	1.50	1.40

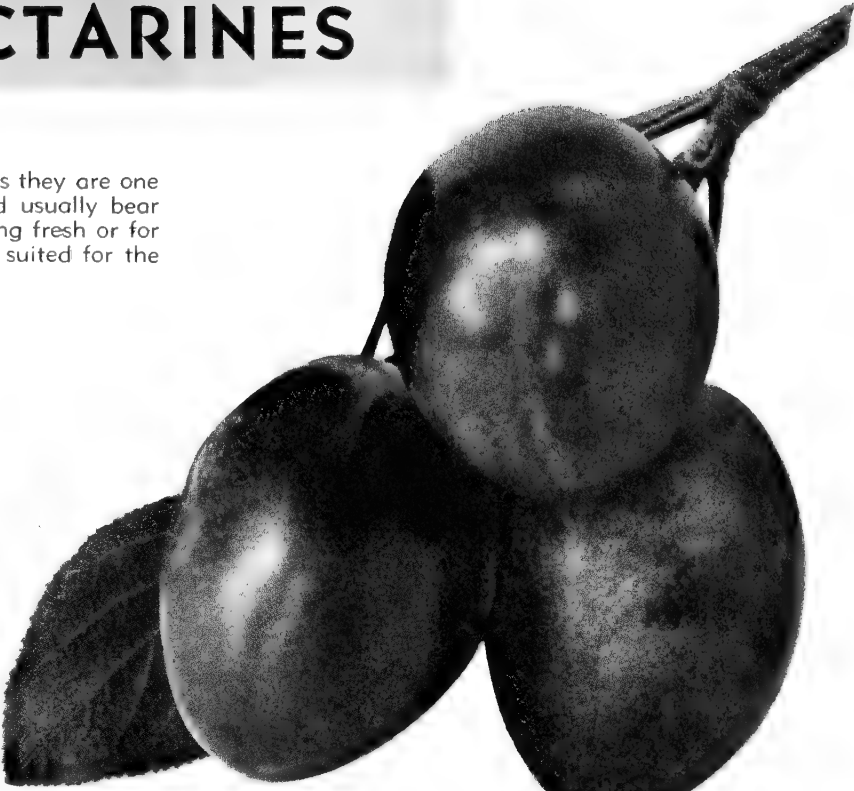

PLUMS and NECTARINES

Bear Young

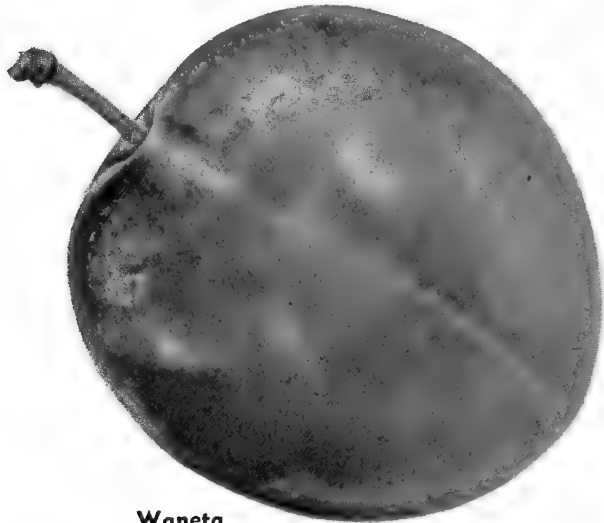

Everyone should have a Plum or two in their yard as they are one of the easiest trees to grow, are perfectly hardy and usually bear the second year after planting. They are fine for eating fresh or for canning. The varieties listed below are varieties best suited for the mid-West.

AMERICA PLUM. The best of Burbank's improved hybrids, unusually attractive golden yellow with red cheek. Bears at an early age. Produces in abundance high quality, sweet, juicy, solid meated Plums. It is free from rot, and the tree is large, vigorous, and extremely hardy. Ripens July 20th.

BURBANK PLUM. A large cherry-red Plum. Flesh amber-yellow with rich sugary flavor, high quality and very productive. A solid-meated Plum which is easy to market in prime condition. See illustration.

Stanley Prune

Waneta

SAPA PLUM. (Hansen Hybrid.) Bears first year. A large size purple Hansen hybrid, with purple flesh full of rich juice of fine flavor. Bears heavy crops annually and begins fruiting the first year after planting. Succeeds everywhere; ripens middle of July. Fine for canning.

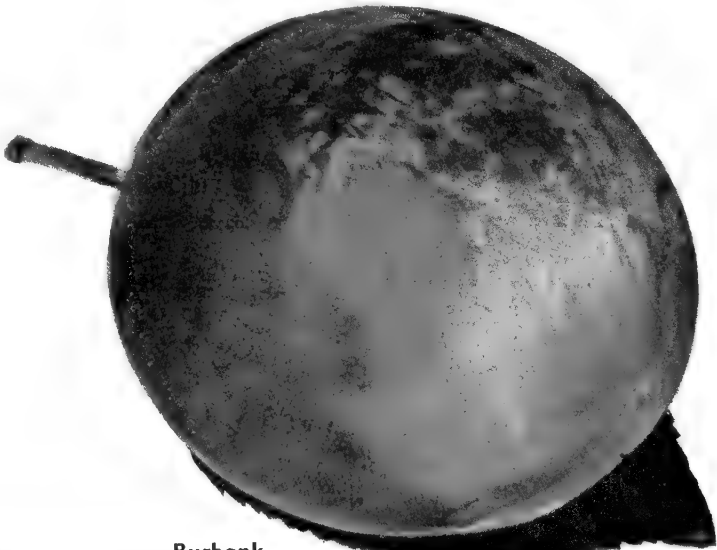

STANLEY PRUNE. Crop second year, ripens 10 days ahead of other Plums. Beautiful purple-blue skin; sweet golden flesh. Freestone. Requires but little sugar and colors deep wine-red when canned. Retains its shape and skin; does not fade. The hardiest Prune for the Middle West. See illustration.

WANETA PLUM. A Hansen hybrid. Exceptionally hardy, withstanding extremely hot and dry weather. Often bears second year. Color purplish red, 2 inches in diameter. See illustration.

	PLUM PRICES		
	Each	5 (Each)	25 (Each)
11/16 in.	\$1.90	\$1.80	
9/16 in.	1.60	1.50	1.40
3-4 ft.	1.30	1.20	1.10
2-3 ft.	1.00	.95	.90

MUNSON PLUM. A hybrid cross of America. Earliest, ripening last of June. Large, yellow, good quality, tender, juicy, sweet. Bears young, producing large crops. See illustration.

PRESIDENT PLUM. The largest of all the Plums. A beautiful dark purplish black with a heavy bloom. Ripens late, 10th of September. A wonderful rich-flavored freestone, solid-flesh Plum. A fine, profitable market Plum and also a splendid Plum for home use.

Burbank

Munson

Delicious NECTARINE

A cross between Peach and Plum. Has smooth skin like a Plum and seed like a Peach. Flesh and flavor of both Plum and Peach. Quality unusually pleasing. Color beautiful bright red; size about same as medium size Peach. Freestone. Bears after second year.

	NECTARINE PRICES		
	Each	5 (Each)	25 (Each)
11/16 in.	\$1.90	\$1.80	
9/16 in.	1.60	1.50	\$1.40

2-3 ft.	1.00	.95	.90

Thomas BLACK WALNUT

Now you can have an improved, grafted Black Walnut, which is giant size and kernels come out in halves. Thomas is the fastest growing and produces the largest nuts. It bears very young, generally next year after planting. A mature tree will produce 15 to 40 bushels of nuts, which sell from \$4.00 to \$10.00 per bushel. The nuts are immense size and crack easily. A bushel of nuts crack out 10 to 12 pounds of meats. Meats are of delicious flavor. Will grow anywhere.

	Each	5 (Each)
4-5 ft.	\$3.50	\$3.25
3-4 ft.	2.95	2.75
2-3 ft.	2.45	2.25

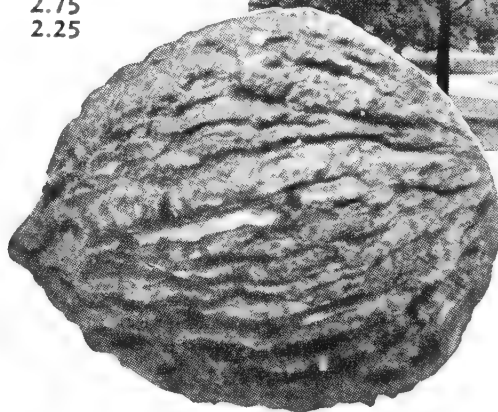

THOMAS WALNUT SEEDLINGS

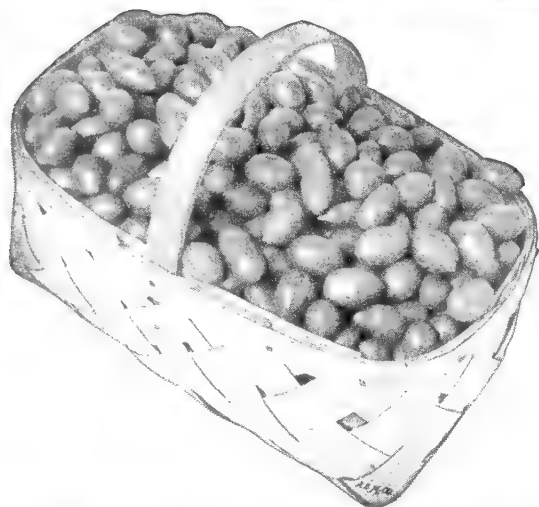

Walnut theoretically does not come true to name from seed, but some of our nearby growers have been very successful in growing Thomas from seed. Many times true or almost identical to the thin-shelled, large size, single partition grafted Thomas Walnut. We have grown several thousand of these ourselves from Thomas seed of our own selection, and offer them at the following attractive prices.

	Each	5 (Each)	25 (Each)
4-5 ft.	\$2.25	\$2.10	\$1.95
3-4 ft.	1.75	1.65	1.50
2-3 ft.	1.25	1.15	1.00

Do not confuse these with hedge size plants offered by many. These are specimen plants.

Stuart PAPER-SHELL PECAN

Hardest of the southern papershell varieties. Can be grown as far north as Kansas City. Nut is large, long, thin-shelled, of excellent quality. Tree is ornamental and of fairly rapid growth. A very profitable variety for commercial planting. Plant 40 feet apart.

	Each	5 (Each)
4-5 ft.	\$3.95	
3-4 ft.	3.25	\$3.00
2-3 ft.	2.75	2.50

HAZELNUT

Round, sweet kernels, easily removed and delicious for many uses. Plants are ornamental with deep green foliage and compact, bushy habit of growth. Fruits freely. Plant a group of them in the corner of your yard.

	Each	5 (Each)
2-3 ft.	\$1.40	\$1.30

Montmorency

Neosho **CHERRIES**

Bear Young—Easy to Grow

SOUR CHERRIES

EARLY RICHMOND. The favorite early bright red May Sour Cherry. Fruit is medium size. A good canner. Tree is medium size. Ripens about a week earlier than Montmorency. Plant some of each variety to give you fresh cherries over a longer period.

MONTMORENCY. The most widely planted Cherry. Productive and a regular bearer. Colors early before ripe—a distinct advantage for shipping. The fruit is roundish, plump and a beautifully glowing red. It hangs in clusters, making picking easy. The fruit does not crack or rot, even in very hot weather. It hangs on without dropping after it is dead ripe. The flesh is rich, sprightly and pleasant. A good shipper and a good canner. Does not mash down in the box.

SOUR CHERRY PRICES

	Each	5 (Each)	25 (Each)
1 1/16 in., 4 ft. up	\$2.00	\$1.85	\$1.60

5/16 in., 2-3 ft.	1.25	1.15	1.00

Napoleon

Early Richmond

SWEET CHERRIES

BLACK TARTARIAN. Most widely planted Sweet Cherry east of the Mississippi. Beautiful lustrous, purplish black when ripe. Medium size for Sweet Cherry, very good quality. The tree is a very large, vigorous, upright grower. Very productive and regular bearer. Early.

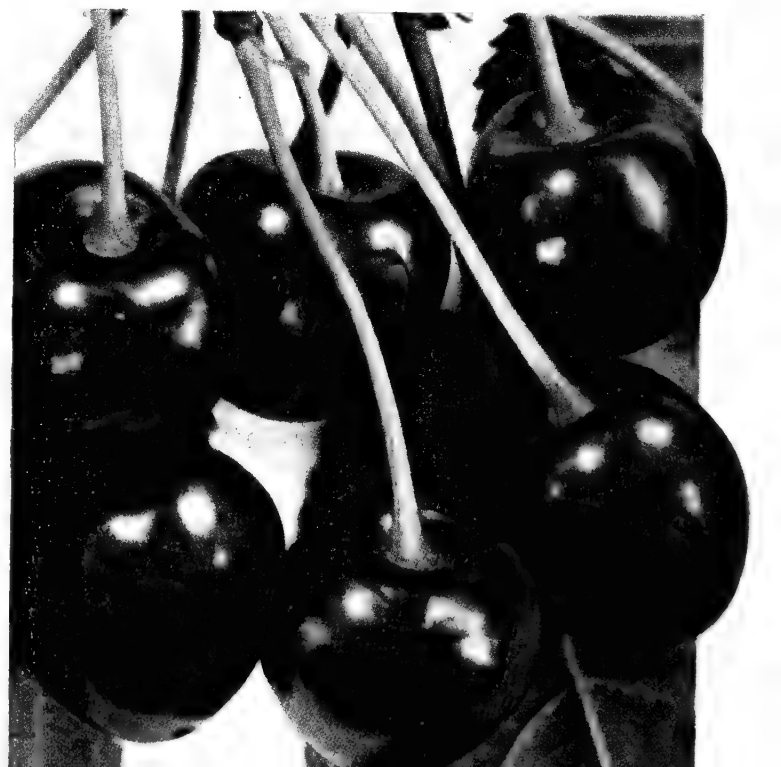

NEOSHO NAPOLEON. This is a select strain of yellow Sweet Cherry which has produced a crop seven straight years here in Neosho. Mellow, sweet flavor. A fancy dessert variety, but is also a good keeper and bearer.

LATE DUKE. A large, heart-shaped, dark red, semi-sweet variety with hardy qualities that succeeds well here in the Middle West.

A Sweet Cherry planted alone is not likely to bear fruit, because it is self-sterile. Plant a Black Tartarian with any other Sweet Cherry for cross pollination.

SWEET CHERRY PRICES

	Each	5 (Each)	25 (Each)
9/16 in., 4-5 ft.	\$1.95	\$1.85	\$1.75

Easy Payment Plan

There is **no red tape** to our Easy Time Payment Plan. Simply write for our Time Payment Blank, which gives full details. Fill out blank and return to us with your order and deposit. You will receive shipment at the **proper planting time**. You pay in **ten equal monthly payments**. Time Payment Plan limited to orders of \$25.00 or more.

LANDSCAPE SERVICE

We maintain a competent, trained landscape department, and will be glad to help you with sketches and plans to help you make your home grounds more attractive. If interested drop us a card and our representative will call on you if you live in area served by them. There is no obligation whatsoever for this service. If we do not serve your area by personal representatives, we can perhaps help you direct by mail. Simply send us a rough drawing of your grounds with measurements of house, lot and existing planting or trees, and a snapshot if possible.

WE NEED THIS INFORMATION TO PREPARE SKETCH FOR YOUR GROUNDS

- Give points of compass.
- Give all dimensions of lot.
- Give all dimensions of all buildings.
- Show location of all windows.
- Show location of all doors.
- Show location of porches.
- Show location of all steps.
- Show location of all walks.
- Show location of all drives.
- Show location of all trees and plants now on grounds.
- Give location of any objectionable views to be screened.
- Give us a list of plants that you particularly want, if possible.

Give us any other information that would be helpful in working out your plan; such as snapshots of house and grounds, character of soil, etc.

Your sketch need not be drawn to scale, but be sure all dimensions are shown.

"Yours for Growing Satisfaction"

Idaho Springs, Colo.,
November 1, 1946.

Dear Sir:

We want to place an order for 100 Montmorency for next spring delivery and please look up your shipment records and try to give us the same kind of trees, size, and shape as you did on this spring's order. These trees were about the finest we have had from you and no doubt will make a fine orchard.

Would like for you to see the special Montmorency we got from you a year or so back. These trees probably should have been planted on 18- or 20-foot centers instead of regular 16, as they are growing like Willows on a Missouri creek bank.

The original Montmorency shipment now around 10 years old produced more cherries than any planting we have and are so far ahead of another planting made at the same time it looks like a different orchard. We should have always bought your trees.

We had a splendid crop, averaged top prices and looks like a fair setting for next year. Will send you some pictures of these plantings later.

Yours very truly,
A. L. Hagerman.

PLANT HEALTH

All-Purpose Spray

Kills Insects, Worms, Fungus. NEOSHO All-Purpose Dust. Our own special formula. Kills eating insects, such as cutworms, bag worms, and canker worms. Controls fungous diseases, such as mildew and black spot. Controls sucking insects, such as aphids and red spider. Keeps your shrubs, Roses, evergreens, and perennials in healthy condition. Remember, an ounce of prevention is worth a pound of cure. Start your dusting when leaves appear and continue at regular intervals. Will adhere to foliage better if applied when foliage is damp.

HARDY - 2-Year No. 1 Field Grown ROSES—Fragrant—Gorgeous Colors

Each \$1.00

3 for \$2.75 12 for \$9.50

McGredy's Scarlet

AMI QUINARD. A strong growing bush with semi-double flowers of deep velvety crimson. Lasting, delightful fragrance.

CHRISTOPHER STONE. Bright velvety scarlet-red flowers with golden stamens. Damask fragrance. Vigorous, up-right grower. Free flowering.

CONDESA DE SASTAGO. Beautiful blooms of fiery copper inside and rich gold on the reverse. Enticing raspberry fragrance. A good strong grower.

DUQUESA DE PENARANDA. Spectacular double flowers of apricot-peach color, very fragrant. Attractive foliage.

EDITH NELLIE PERKINS. Shapely two-toned pink flowers produced in great abundance. Color is coppery rose outside and soft salmon-pink inside. Plants branch freely and produce quantities of flowers.

EDITOR McFARLAND. Perfectly formed long-pointed buds, fragrant flowers of clear brilliant pink with strong stems. One of the longest lasting Roses for cut flowers we have.

ETOILE DE HOLLANDE. Large deep crimson flowers with velvety finish and rich fragrance. Large healthy foliage. One of the finest red Roses grown.

K. A. VICTORIA. Creamy buds and perfect delicate white flowers, tinted lemon-yellow at center. Double.

McGREDY'S IVORY. Perfectly formed long-pointed buds of ivory-white. Always in flower.

Condesa de Sastago

McGREDY'S SCARLET. Large vivid rose-red flowers. Plants are healthy and large. This Rose is a deep scarlet-red and one of the best.

McGREDY'S YELLOW. Unfading canary-yellow flowers of excellent form with a mass of golden anthers glorifying the center of the flower. Dark, glossy holly-like foliage.

MRS. CHAS. BELL. A sport of Red Radiance with flowers of similar form, but of delicate salmon-pink coloring.

MRS. PIERRE S. DU PONT. Double flowers of rich gold, almost orange in the depth of petals, spicy fragrance. The plants are bushy and foliage is attractive.

PINK DAWN. Splendidly formed flowers of velvety rose-pink. Both form and color are lovely. A fine cutting Rose, unusually free blooming.

POINSETTIA. Semi-double flowers of bright rich scarlet produced freely all season on vigorous plants of fairly tall growth. Rich tea fragrance.

PRES. H. HOOVER. Large flowers of flaming scarlet and yellow in bud, opening to soft creamy yellow with scarlet markings. Long stems.

RADIANCE. Globular cup-shaped flowers of two-toned pink. Vigorous, free blooming. The most popular pink Rose grown.

RED RADIANCE. A deep red sport of Radiance and exactly like it except for color.

SOUER THERESE. Exquisite buds and semi-double cupped flowers of golden yellow with edges of petals spotted madder-carmine.

THE DOCTOR. Immense long-pointed buds of sparkling pink, slowly open to great flowers 5 to 6 inches across, of exquisite satiny silvery pink. Intense fragrance.

Hardy Climbing Roses—Each \$0.90

HARDY CLIMBING ROSES

Super X Grade: Each \$0.90; 3 for \$2.50; 12 for \$9.00.

AMERICAN BEAUTY. A strong grower with large flowers of a very pleasing color. Very good for cutting and blooms are exquisitely colored and unusually fragrant. One of the most popular Neosho Hardy Climbing Roses.

SILVER MOON. The creamy white buds are long and pointed, and open into semi-double, white flowers with golden yellow stamens.

DR. W. VAN FLEET. Has long, pointed buds of rich flesh-pink. It is a hardy climber and a splendid variety for cutting. Thrives everywhere.

PAUL'S SCARLET. The most brilliant scarlet. Has semi-double flowers freely produced. Makes a striking background on trellis or fence.

EVERBLOOMING BABY ROSES

Super X Grade: Each \$1.00; 3 for \$2.75; 12 for \$9.50.

Fine for cemetery planting, in front of evergreens, in solid beds, in fact anywhere that you want constant bloom from June until frost. They require little attention and grow anywhere. Will bloom this year and for many years to come.

CHERIO. A real deep pink that blooms all season, even in hot weather.

ELSE POULSEN. Great clusters of apple-blossom-pink flowers. Hardy, permanent, always in bloom. Grows 24 to 30 inches tall.

IMPROVED LAFAYETTE. Cheerful, cherry-red flowers from spring until frost—a profuse bloomer. Grows 18 to 30 inches tall.

IDEAL. A dark red, profuse bloomer. Grows 18 to 24 inches tall.

ORANGE TRIUMPH. Large double scarlet-orange flowers in huge clusters, combined with good glossy foliage.

SUNMIST. Big clusters of bright yellow flowers produce all season on hardy vigorous plants.

"Yours for Growing Satisfaction"

Pampa, Texas,
February 25, 1947.

Neosho Nurseries Company,
Neosho, Missouri.
Gentlemen

I wish to take time out this morning to tell you that I am very well pleased with the Rose bushes. They came in last Saturday and were well packaged and were very fine bushes. Much better bushes than I have received from other nurseries at various times in the past. I am sure your many customers appreciate receiving good healthy stock from you.

Yours very truly,

D. CLAPNER.

EVERBLOOMING CLIMBING ROSES

Prices: Super X Grade, Each \$1.15; 4 for \$3.95 (except on Dr. J. H. Nicolas).

CLIMBING KAISERIN AUGUSTA VICTORIA. Soft pearly white shading to light lemon in center. Everblooming.

CLIMBING TALISMAN. Two-toned red and gold; everblooming.

CLIMBING PIERRE S. DU PONT. Deep golden yellow, semi-double, with delicate fragrance. Everblooming.

CLIMBING PINK RADIANCE. A beautiful two-toned, vivid pink, fragrant, monthly bloomer.

CLIMBING RED RADIANCE. The same favorite in climbers that it is in the bush Rose. Unusually thrifty grower of cerise-scarlet. Everblooming.

DR. J. H. NICOLAS. (Patent No. 457.) Here is a new hardy everblooming climbing Rose with beautiful double, deep rose-pink flowers on long stems, ideal for cutting. Hardy as Paul's Scarlet and disease resistant. An outstanding new variety. Each \$1.50.

PATENTED ROSES

CRIMSON GLORY. (Patent No. 105.) A beautiful crimson flower shaded deep red and mellowed by a velvety nap. The very best dark, velvety crimson-red garden Rose. Each, \$1.50.

HEART'S DESIRE. (Patent No. 501.) Large double flowers of rich crimson-red on long stems. Dark green leathery foliage. Each, \$1.50.

MIRANDY. (Patent No. 632.) Maroon-red buds opening into large double blossoms of good substance. All-America Selection, 1945. Each, \$1.50.

MME. CHIANG KAI-SHEK. (Patent applied for.) A Rose so exquisite that mere words cannot describe it nor any picture do it justice. Superb pointed buds of soft yellow and as the petals gracefully unfold, the outer petals become a rich ivory, with the center a clear canary-yellow. A full, double Rose with 35 petals, freely produced on fine stems for cutting. It has a subtle fragrance that enchants you. One of the world's great Roses. An All-America Rose Selection Winner for 1944. Each, \$1.50.

PEACE. (Patent No. 591.) Large yellow buds open into huge blossoms of creamy yellow overlaid with a flush of delicate pink. All-America Rose Selection for 1946. Each, \$2.00.

SATURNIA. (Pat. No. 349.) A new outstanding glorious Rose which should be in every garden. The face of the large petals is a very brilliant cardinal-red, while the reverse is salmon-gold and copper, creating a warmth of color difficult to describe—still more difficult to forget. Each, \$1.50.

Wisteria—Each \$1.95

Silver Lace Vine—Each \$1.00

Clematis—Each 70c

BITTERSWEET. Clusters of orange-scarlet berries; when dried make lovely winter bouquets. Plant two for pollination. See illustration.

Each \$0.50 3 for \$1.35

CLEMATIS, PANICULATA. Easy to grow, perfectly hardy, rapid growth. Fragrant white starlike flowers in late summer and early fall.

Each \$0.70 3 for \$1.95

LARGE FLOWERING CLEMATIS

Clematis are one of the most beautiful of all flowering vines. On a trellis, fence, or porch, their red, purple, blue, or white flowers are a gorgeous sight.

BARON VEILLARD. Lovely, large flowering, free blooming, pink.

JACKMANI. The popular purple variety with large, purple-blue flowers.

MME. ANDRE. Large purplish crimson flowers.

RAMONA. Beautiful sky-blue flowers.

Each \$1.25 3 for \$3.60

EVERGREEN HONEYSUCKLE. (Hall's.)

Fragrant white and yellow flowers, and attractive blue-green foliage which remains most of the winter. Grows anywhere. See illustration below.

Each \$0.50 3 for \$1.35

EVERBLOOMING HONEYSUCKLE.

(Heckrotti.) Can be grown as a shrub or vine. Bright rose-red flowers lined with gold. Large, blue-green foliage. Blooms all summer. Perfectly hardy.

Each \$0.75 3 for \$1.95

PURPLE LEAF HONEYSUCKLE (*Lonicera Japonica Purpurea*). An evergreen Honeysuckle with long dark green leaves which take on a purple hue in the winter time. The blossom is yellow and white with pink shading on outside. Perfectly hardy and can be trained as a dwarf compact shrub if desired.

Each \$0.75 3 for \$1.95

IVY, BOSTON. The most popular plant for covering brick, stone, or wood. Clings to smoothest surface. Colors beautifully in fall, mottled brilliant orange-red.

Each \$0.75 3 for \$1.95

SILVER LACE VINE. The Silver Lace Vine often grows 20 feet the first season. Thousands of fleecy white flowers in late summer. Hardy and easy to grow. See illustration.

Each \$1.00 3 for \$2.75

WISTERIA. Our plants are grafted and sure to bloom. Beautiful lilac-purple.

Each \$1.25 3 for \$2.95

PINK WISTERIA. This is the finest pink Wisteria we have ever seen. Clusters about 15 to 18 inches long. Slow to commence flowering, but once started it blooms profusely. See illustration, this page.

Each \$1.95

DOUBLE VIOLET WISTERIA. The only double Wisteria known in this country, and has the darkest colored flowers of all. They are exactly like dark-colored purple Violets borne in clusters about 15 to 18 inches long. Very free bloomer.

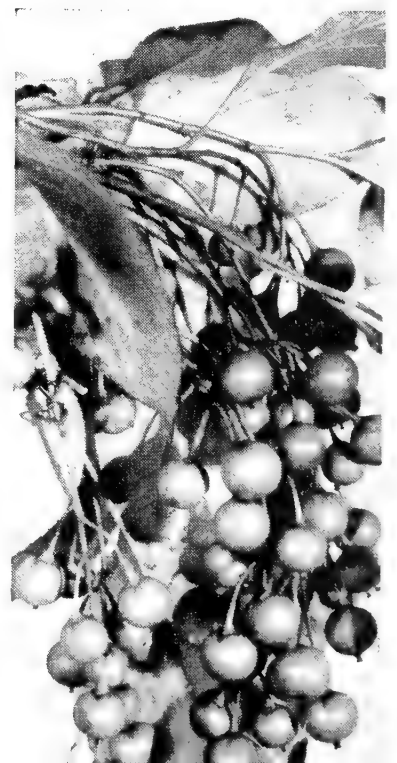

Each \$1.95

These varieties of Wisteria can all be used as a vine or trained to tree form by tying to 6-ft. stake as they make a stiff, heavy stem.

Hall's Honeysuckle—Each 50c

Bittersweet—Each 50c

HARDY HEDGES

A beautiful green wall that beautifies as it serves to make a barrier or a screen at very small initial cost and no maintenance except to prune to desired shape and height.

To make a good compact hedge, they should be planted 8 to 9 inches apart and pruned back to within 2 inches of the ground when they are set. They should be sheared several times in the early part of the growing season to form a dense, compact hedge.

Why is the 2-3 ft. grade more desirable and of better value than 12-18 inch, if you are going to cut them back when planting? Because the 12-18 inch grade will have 2 to 3 canes. The 2-3 ft. will have 5 to 9 canes and a much heavier root system, hence will make a compact hedge the first season.

The hedge plants we offer are heavy, well-branched, field-grown plants which give an immediate effect, and should not be confused with small spindling 2-year seedlings from beds.

GREEN BARBERRY. A protective as well as ornamental hedge, as the small spines will keep out cats, dogs, and chickens. Makes an attractive hedge either trimmed or untrimmed. Perfectly hardy. Red berries, and foliage colors beautifully in fall.

	Per 25	Per 50	Per 100
12-18 inch	\$5.45	\$8.95	\$15.95

CALIFORNIA PRIVET. Semi-evergreen, with thick, dark green foliage. Most beautiful of all the Privets, but north of latitude of Kansas City it is only semi-hardy. A rapid grower, can be sheared to any desired height, making a dense, compact green wall.

	Per 10	Per 25	Per 50	Per 100

BLUE MIST

(*Caryopteris*)

Another charming low growing shrub and a real contribution to the meager list of summer and fall flowering shrubs. From August until frost it is covered with powdery blue-fringed flowers. Shrub grows 2 to 3 feet wide and about as tall, with silvery green foliage. Perfectly hardy.

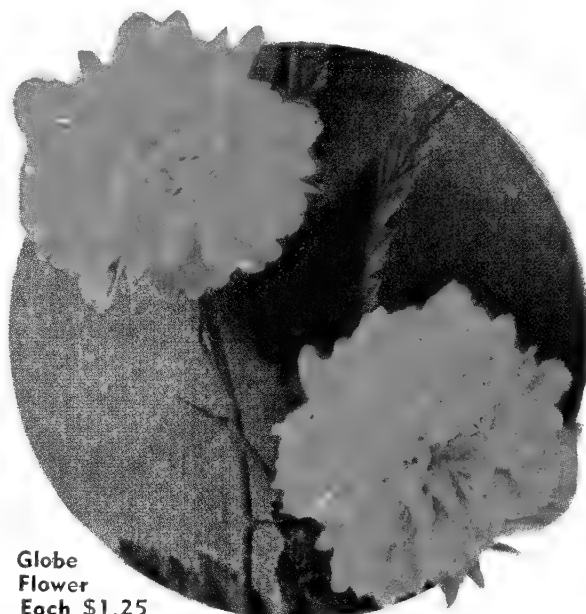

Each \$1.25

GLOBE FLOWER

(*Kerria Japonica*)

Brilliant double golden yellow flowers in May and June, and intermittently all summer. Bright green stems and foliage add to the brilliancy of the flowers. Plant it in the sun and its pure golden flower will delight you the entire summer.

Each \$1.25

Globe Flower
Each \$1.25

Butterfly Bush

BUTTERFLY BUSH Or Summer Lilac

(*Buddleia*)

Bloom from June till frost. New varieties with gorgeous colors; immense fragrant flowers. Hardy roots. Cut back to the ground in early spring.

CHARMING. Rosy orchid-pink flowers, spikes 15 to 18 inches long, full and tapering towards the tip. Bright green foliage; a beautiful variety.

Each \$0.95

FLAMING VIOLET. The finest and most brilliant of all. Immense spikes of flaming violet, intensely brilliant and sparkling, with a fiery glow rarely seen in flowers. Flower trusses are 12 to 18 inches long and last a long time in bloom on the shrubs, as well as when cut. Plant is vigorous, strong and upright.

Each \$0.95

ILE DE FRANCE. A well-shaped plant 4 feet tall with rich purple flowers with bright orange eye; rich green foliage.

Each \$0.95

FARQUHAR. A light purple that blooms all summer.

Each \$0.75

HARDY PINK HYDRANGEA

This beautiful new, hardy variety produces large irregular, globe-shaped clusters of semi-double flowers 8 to 10 inches in diameter, of a beautiful clear pink on alkaline soil, but in acid soil it is a magnificent light blue. Healthy, decorative foliage. Grows 2 to 3 feet wide and about the same height. A must for every yard.

2-Yr. Plants: Each \$1.95

Hardy Pink Hydrangea

SUN GOLD

HYPERICUM. (Plant Patent No. 568.) A brilliant mound of gold all summer. Dazzling golden flowers 2 to 3 inches in diameter on a low growing shrub of glossy green foliage. Fine for foundation planting.

Heavy 2-yr., Each \$1.95

**Hypericum
Sun Gold
Each \$1.95**

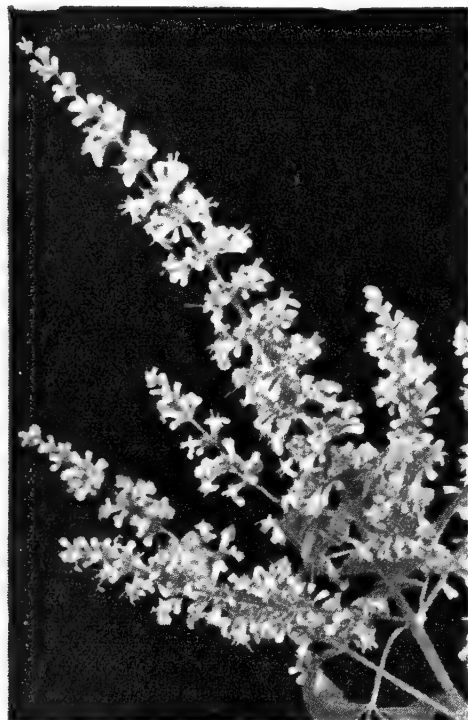

VITEX

(Chaste Tree)

Grows 6 to 10 feet tall with big palmate foliage and branching spikes of beautiful lavender-blue flowers in August-September. A beautiful late summer blooming shrub. Will stand hot locations.

Each \$1.50

Vitex—Each \$1.50

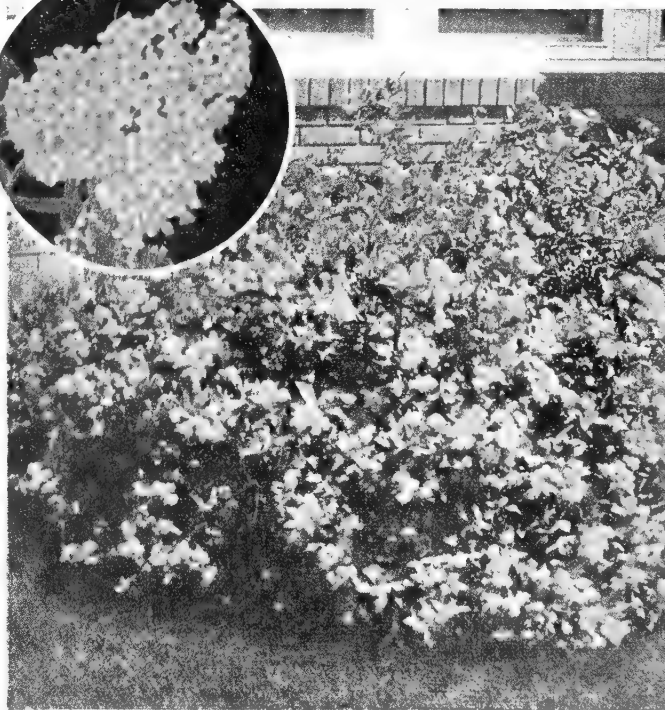

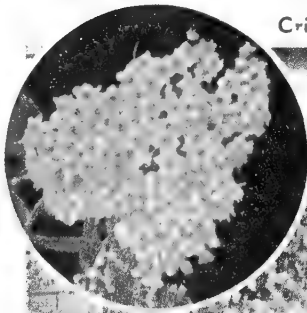

CRIMSON SPIREA

(Spirea Anthony Waterer)

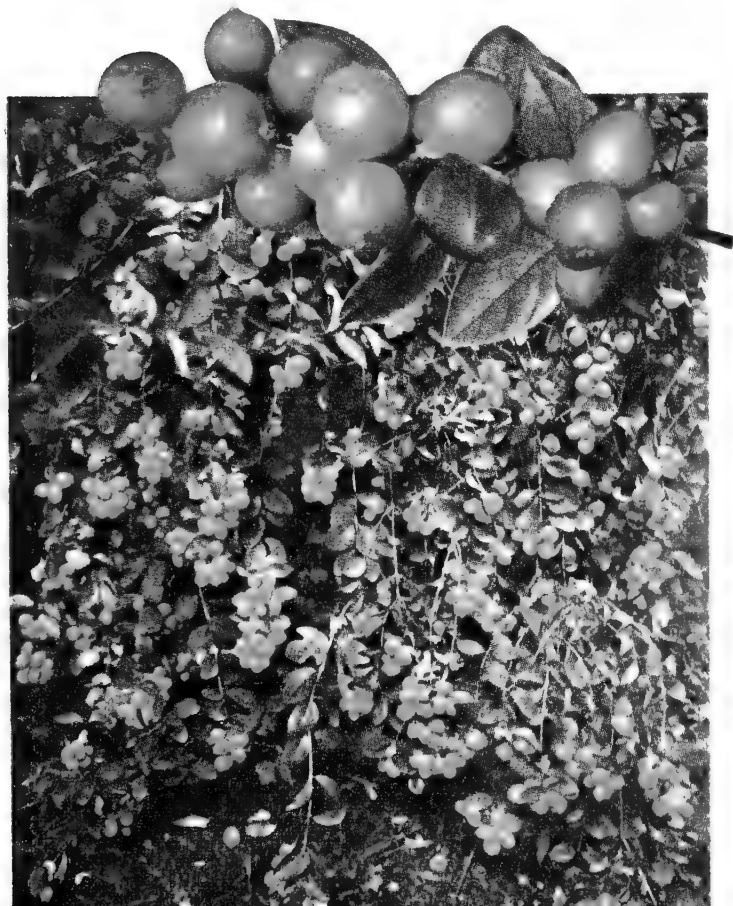

One of the best and most popular low growing shrubs, making a neat, dense bush 2 to 3 feet tall, with lovely deep rose-colored flowers all summer. Ideal for foundation planting. Perfectly hardy anywhere.

Hardy FLOWERING SHRUBS

A few well-placed shrubs bring untold pleasure and beauty to your home. Once planted, they require little care and will bloom year after year. Plant several varieties and have bloom all season. We offer shrubs in 3 sizes, all hardy, field-grown, first-class plants.

Parcel Post Grade: This grade is the size most Mail Order firms offer as 2-yr., field-grown.

Select Grade: Heavier, select plants out of our 2- and 3-year-old blocks; well-rooted and heavier branched.

Super X Grade are for those who desire quick results and extra heavy plants. These are the largest, finest specimen plants obtainable.

ALMOND, FLOWERING. One of the first shrubs in bloom in the spring, it is a profusion of double pink flowers resembling small Roses, covering every twig and branch. Perfectly hardy. Grows 3-4 ft. tall.

Super X \$0.95 Select \$0.75

BARBERRY, GREEN. An ideal low shrub for foundation or border planting. Makes a low, dense rounded shrub about 3 feet tall and wide. Will grow in sun or shade and in the fall its foliage colors a beautiful bronzy red. Bright red berries hang on all winter.

Select \$0.50 Post size \$0.40

BARBERRY, RED LEAF. Most brilliant colored shrub of all with lustrous red foliage all season and bright red berries in the fall. Plant in full sun.

Super X \$0.90 Select \$0.70 Post size \$0.50

BEAUTY BUSH (Kolkwitzia). One of the best flowering shrubs with graceful branches covered with delicate pink flowers in great profusion. Closely related to Weigela, but possesses a greater degree of beauty and refinement.

Super X \$0.95 Select \$0.80 Post size \$0.65

BEAUTYBERRY (Callicarpa). Graceful branches covered in August with thousands of closely set small pink flowers. These are followed in September by masses of glittering violet-blue berries in dense clusters along each branch.

Super X \$0.75 Select \$0.60 Post size \$0.45

BUTTON BUSH. An excellent shrub for the border with attractive foliage and feathery, white, round ball-shaped flowers resembling round buttons. June to September. Grows 6-8 ft.

Super X \$0.75 Select \$0.60 Post size \$0.45

BUSH CHERRY. Fruitful as well as ornamental, with white blossoms followed by rich red fruit which is fine for jams, jellies, or pies.

Super X, 2-yr., 2 for \$1.98 Select \$1.69

CRAPEMYRTLE. Lovely clear flowers of soft crepelike texture all summer long. Blooms on new wood each year. Not hardy north of Kansas City.

Each \$1.00

CRANBERRY, HIGH BUSH. Handsome shrub of upright spreading form with dense brilliant green foliage. Single white flowers in April and May are followed by clusters of scarlet berries in late summer, hanging on until spring. Will grow in shade as well as sun. 8-10 ft.

Super X \$1.25 Select \$0.95

CALYCANTHUS. (Sweet Shrub.) A handsome shrub with glossy foliage and chocolate-brown flowers which have a spicy fragrance. Will grow in shade. Graced grandmother's garden and still popular.

Super X \$0.95 Select \$0.80

Post size \$0.60

DESMODIUM. A medium growing shrub with long, graceful branches covered with large clusters of royal purple Sweet-Pea-like flowers in early fall—very showy. Especially desirable because little else is in bloom at this time.

Super X \$0.95 Select \$0.80

Post size \$0.60

DEUTZIA, PRIDE OF ROCHESTER. A vigorous grower with double white flowers, tinged with pink, in great profusion in April and May. Grows 8-10 ft. tall.

Super X \$0.75 Select \$0.60

Post size \$0.45

DOGWOOD, RED-TWIGGED. Valued for its bright red twigs which contrast remarkably with the bare, dull-colored branches of other shrubs in winter. Grows 6 to 8 ft. tall.

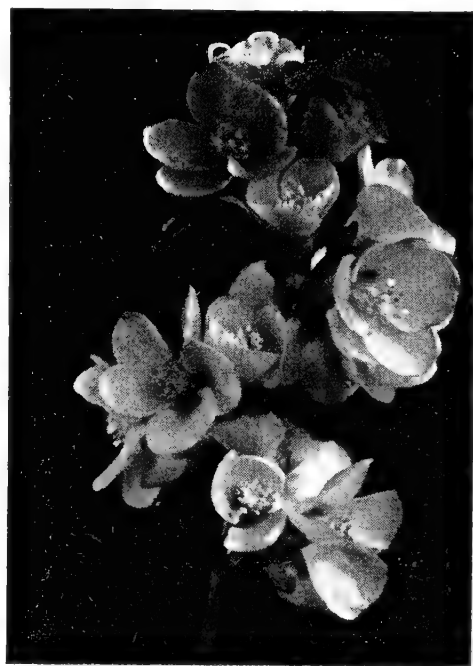

Super X \$0.75 Select \$0.60

Post size \$0.45

ELDER, GOLDEN. A large growing shrub with golden yellow leaves which gives good contrast in the border.

Neosha SHADE TREES

ASH, WHITE. A good all-purpose, well-shaped shade tree of medium rapid growth and long life, not easily broken in storms. Free from insects and diseases. Hardy.

5-6 ft. \$1.35 6-8 ft. \$1.75 8-10 ft. \$2.50

ELM, AMERICAN. A majestic and graceful tree, at home anywhere from the Rockies to the Atlantic. A grand old tree familiar to all.

5-6 ft. \$1.25 6-8 ft. \$1.50 8-10 ft. \$1.95 10-12 ft. \$2.95

ELM, CHINESE. The fastest growing shade tree, small leaves, hardy.

5-6 ft. \$1.00 6-8 ft. \$1.25

NEOSHO BROADLEAF CHINESE ELM. The fastest growing tree in America. Hardy, drought resistant, beautiful. A sport of Chinese Elm discovered in our nursery row and from which we have propagated the past ten years. Its leaves are large and dark green. The bark is smooth and branches are straight and strong. Will stand high wind, dry summers, and cold winters, and still grow from 8 to 14 feet in one year. The demand for this tree is so great we have never been able to build up a surplus stock, so if you want some of these beautiful, permanent, quick growing trees, you'd better place your order at once as our supply is limited. We offer them in the following sizes:

5-6 ft. \$1.50 6-8 ft. \$1.95 8-10 ft. \$2.95

MAPLE, SILVER. Quick growing and graceful, with deeply cut dark green foliage, silvery white beneath. Often called soft Maple. Foliage colors a golden yellow in fall.

5-6 ft. \$1.35 6-8 ft. \$1.75

MAPLE, SUGAR. One of the best street and park trees. Dense, upright grower, with brilliant colored foliage in the fall. Does well in most any location. This is the Sugar Maple that maple sugar is made from.

5-6 ft. \$2.00 6-8 ft. \$2.50 8-10 ft. \$3.95 10-12 ft. \$5.50

MAPLE, NORWAY. One of the best trees for street and park, with dense upright growth and brilliant colored foliage in the fall. Will do well in most any location.

5-6 ft. \$2.00 6-8 ft. \$2.50

OAK, PIN. The finest of all Oaks, the most rapid grower—symmetrical, pyramidal form to 80 ft. Rich, dark glossy green foliage is deeply cut and colors a beautiful coppery red in the fall. Sturdy and rugged—free from insects or diseases.

5-6 ft. \$1.75 6-8 ft. \$2.75 8-10 ft. \$3.95

POPLAR, LOMBARDY. Tall, slender trees of rapid growth. Dark green leaves.

POPLAR, BOLLEANA. Similar to Lombardy, except the leaves are dark green with silver underside.

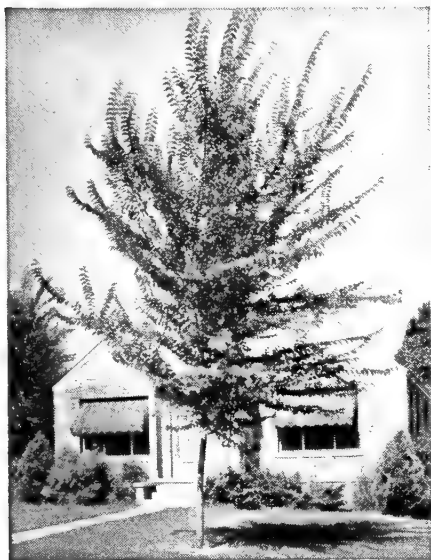

3-4 ft. \$0.75 4-5 ft. \$1.00 5-6 ft. \$1.25

WILLOW, WEeping. Beautiful, graceful, lacy tree with long, drooping branches, densely covered with fresh green leaves. A rapid grower. We have either the green-barked or golden barked varieties. State preference when ordering.

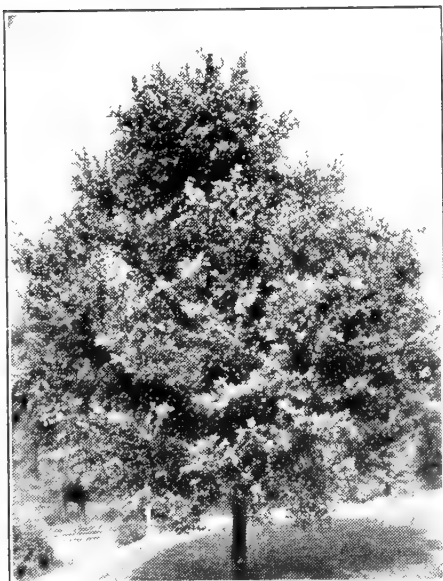

5-6 ft. \$1.35 6-8 ft. \$2.00

Lombardy Poplar

Broadleaf Chinese Elm

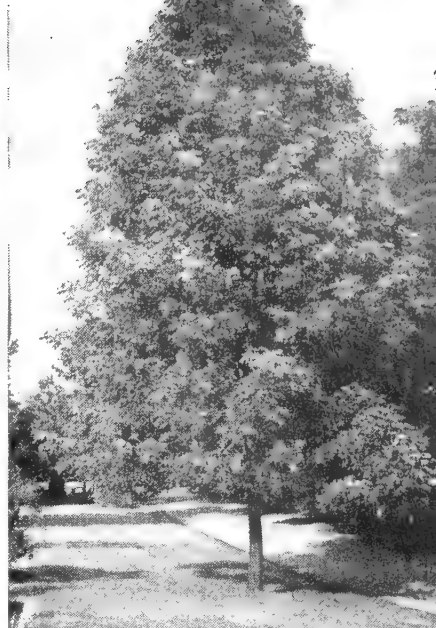

White Ash

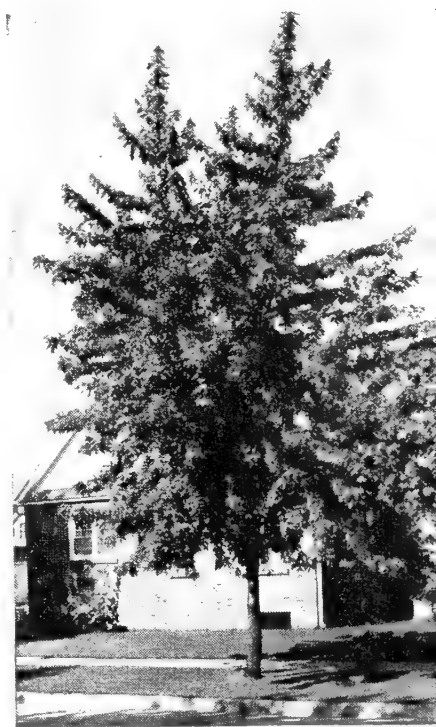

Pin Oak

Weeping Willow

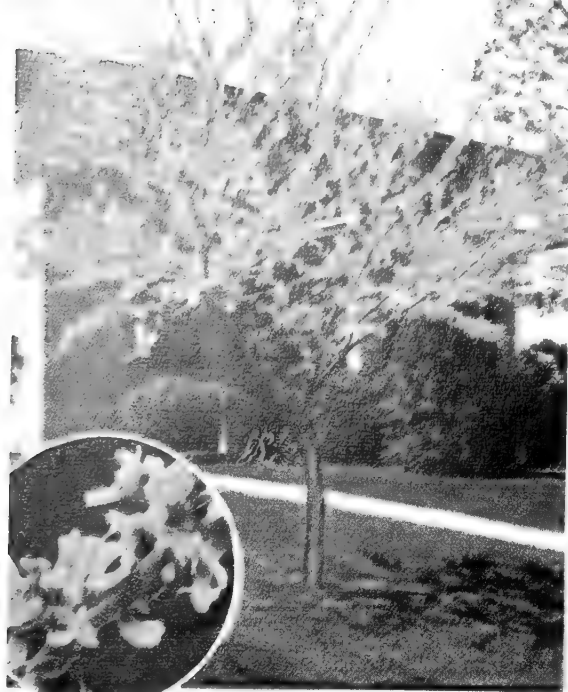

Sugar Maple

Silver Maple

Flowering TREES

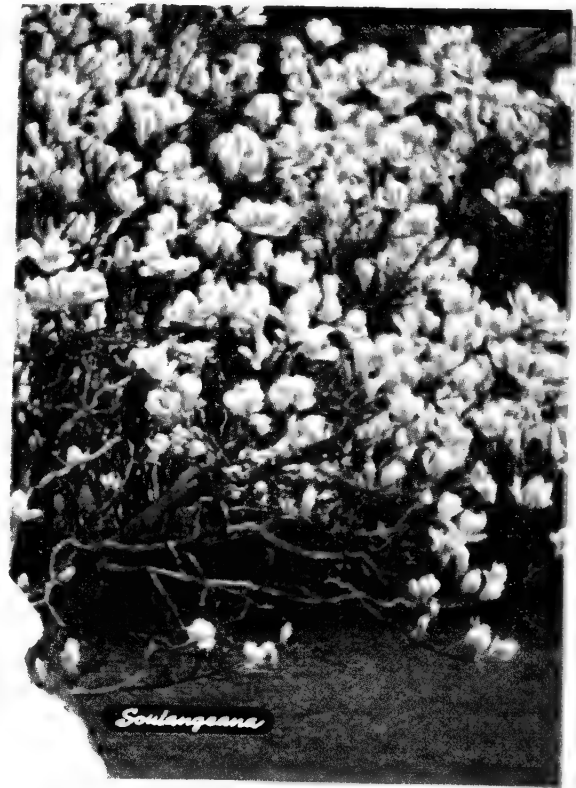

Redbud

REDBUD. A slender graceful tree which is covered in early spring, before the leaves appear, with clusters of purplish pink pea blossoms, which make the tree appear as a small pink cloud.

3-4 ft. \$1.35
4-5 ft. 1.75
5-6 ft. 2.25

CHINESE REDBUD. An improved dwarf form of Redbud with larger and deeper colored blossoms. Quite scarce. Not over three to any one customer.

2-3 ft. \$1.95
18-24 in. 1.35

Magnolia

MAGNOLIA SOULANGEANA (Saucer Magnolia)

Many call this Tulip Tree because of the large pinkish white flowers in early spring which resemble enormous Tulips. Makes a small, many-trunked tree with shiny foliage. The showiest of all Magnolias. Perfectly hardy, but should be transplanted only in the spring. Roots wrapped in moss.

18-24 in. \$3.35 Balled and Burlapped \$3.95

Pink Dogwood

Magnolia Soulangeana

DOGWOOD, WHITE FLOWERING.

One of our most handsome native trees. In the spring its large white flowers are spectacularly beautiful, in the autumn its glittering red berries are ornamental to the highest degree. Foliage turns pink, salmon, scarlet, and maroon in the fall.

2-3 ft. \$1.75 3-4 ft. \$2.50

DOGWOOD, PINK FLOWERING.

Similar to White Flowering, except that flowers are reddish pink. Ideal for specimens.

2-3 ft. \$2.95

CRAB, BECHTEL'S. A double form of the Wild Crab. In the spring is covered with double pink blossoms exactly like small Roses, with a delicate violet scent. A dwarf, compact grower which makes a fine lawn specimen.

2-3 ft. \$1.35

CRAB, HOPA. Beautiful in bloom, in foliage, in fruit. Flower buds are bright red, opening into fragrant bright pink flowers. Foliage is maroon and from mid-summer clusters of small red Crab Apples gleam brightly along the branches. Hardy, easy to grow. Requires more room than Bechtel's, as it attains 20 ft. height.

3-4 ft. \$1.50 4-5 ft. \$1.95

PEACH, FLOWERING. A small tree with beautiful double red flowers in spring.

2-3 ft. \$1.00 3-4 ft. \$1.50
4-5 ft. \$2.00

PLUM, RED LEAF. A dwarf tree of compact shape and habit, with deep rich blood-red leaves, become darker as the season advances. Covered with small pink blossoms in early spring. Makes a striking accent in the yard.

2-3 ft. \$1.35 3-4 ft. \$1.75

MIMOSA. (Silk Tree.) A low flat-headed tree with Acacia-like foliage and feathery, fragrant pink blossoms in summer. Will grow in practically all types of soil. Not hardy north of Kansas City, Missouri.

2-3 ft. \$1.25 3-4 ft. \$1.60
4-5 ft. \$1.95

PUSSY WILLOW. A small tree, or large shrub, growing to 20 ft. Well known for its silvery catkins.

2-3 ft. \$0.75 3-4 ft. \$1.00

RUSSIAN OLIVE. Grows to 20 ft. with small gray-green leaves, silvery beneath and gives a good color contrast in the border.

3-4 ft. \$0.75 4-5 ft. \$1.25

Hopa Flowering Crab

"Yours for Growing Satisfaction"

Dear Friends:

I certainly thank you for the nice nursery stock you sent me last fall. I am very pleased, your super-size stock is truly super. Everything was as fine as if I had been there to select it in person. That's what I like about you folks. I sure am going to have a pretty place, thanks to your nice stock. Previous stock from you is growing swell.

ALMA LUECHT.
Sullivan, Ill.

Perfect PEONIES and Hardy IRIS

PEONIES

Bloom every year—last a lifetime—easy to grow—can be planted either in fall or spring.

Plant them in your border, garden or most anywhere that they can get plenty of sunlight. They come up year after year with no care or bother. Burning off of leaves and stocks in late Fall will help curtail bud blight.

MONS. JULES ELIE. One of the best Peonies grown. A beautiful silver-pink. Develops a high crown; strong grower and a very free bloomer. A splendid addition to the midseason varieties. One of the largest and best.

Each \$1.25 3 for \$3.25

KARL ROSENFELD. The best early red. Very large flower, semi-rose type. Extremely vigorous grower; tall and free flowering.

Each \$1.25 3 for \$3.25

EDULIS SUPERBA. One of the best commercial Peonies; a dark pink, even color; large flat crown when fully open. Very fragrant, upright growth; early bloomer.

Each \$0.75 3 for \$2.00

FESTIVA MAXIMA. The best early white. Very large and full rose type; paper-white with crimson markings in center. Tall, strong grower.

Each \$0.75 3 for \$2.00

FELIX CROUSSE. Most popular red. For freedom and sureness of bloom, beauty of flower, none other surpasses it.

Each \$1.00 3 for \$2.75

Festiva Maxima Peony—Each 75c

THERESE. Enormous satiny pink flowers changing to lilac-white at center. Erect strong grower. The world's highest rated Peony. **Each \$1.25 3 for \$3.25**

WALTER FAXON. Vivid sparkling pink, deepening toward center. Must be seen to be appreciated. Tall free bloomer, and one of the best pinks.

Each \$1.35 3 for \$3.50

PEONY COLLECTION

Our Selection of Good Varieties
1 Red 1 White 1 Pink

3 for \$1.98

Dwarf Iris—Each 50c

EL CAPITAN. A giant Iris with flowers of mammoth size. Handsome manganese-violet coloring, medium blue in effect. Sold recently at \$10.00 per plant. **Each \$0.45 3 for \$1.25**

CRYSTAL BEAUTY. A Sass Iris of gorgeous, pure, clear snow-white. Flowers perfect shape and freely produced.

Each \$0.35 3 for \$0.90

PINK SATIN. A Sass creation of large, lovely pinkish, lilac-mauve.

Each \$0.35 3 for \$0.90

JEAN CAYEAUX. Winner of the Dykes Memorial Award; certainly one of the most beautiful Iris grown. Novel, superb coloring of light Havana Brown with a luster of golden tan. Flowers freely over a long period. **Each \$0.45 3 for \$1.25**

WABASH. One of the most beautiful of all Iris, with large flowers; standards a clear ruffled white and falls of rich violet with a distinct white border. Be one of the first to have this variety. **Each \$0.75 3 for \$2.00**

DWARF IRIS. These hardy Dwarf Iris are one of the most inexpensive long-lived edging plants in cultivation. They multiply rapidly, bloom profusely, and require no care. They have a miniature form, all the characteristics of the tall Bearded Iris. Excellent for edging border or for rock gardens. Bloom in April-May. We offer them in purple or yellow.

3 for \$0.50 12 for \$1.75

KOREAN IRIS. We think these are the finest of Iris with graceful grass-like foliage and beautiful large blossoms 6 inches across in rich colors of either Royal Purple, pure White, Mahogany-red or Blue. They prefer a moist soil.

Each \$0.50 3 for \$1.75

LANDSCAPE IRIS. We have made up this assortment of good varieties in a wide variety of colors for those who want lots of color, but are not particular as to varieties. Fine for borders in front of shrubs. **10 for \$1.25 25 for \$2.35**

CHOICE IRIS - Beautiful as Orchids

BLUE TRIUMPH. 24 in. The finest light soft blue with flaring falls. As near perfection as any Iris to date.

Each \$0.50 3 for \$1.35

CALIFORNIA GOLD. 36 in. We consider this the finest deep yellow Iris created to date. It is simply superb, having a brilliance and purity of color and perfection of form not approached by any other deep yellow Iris. Flowers are large and very freely produced. See cut on page 38.

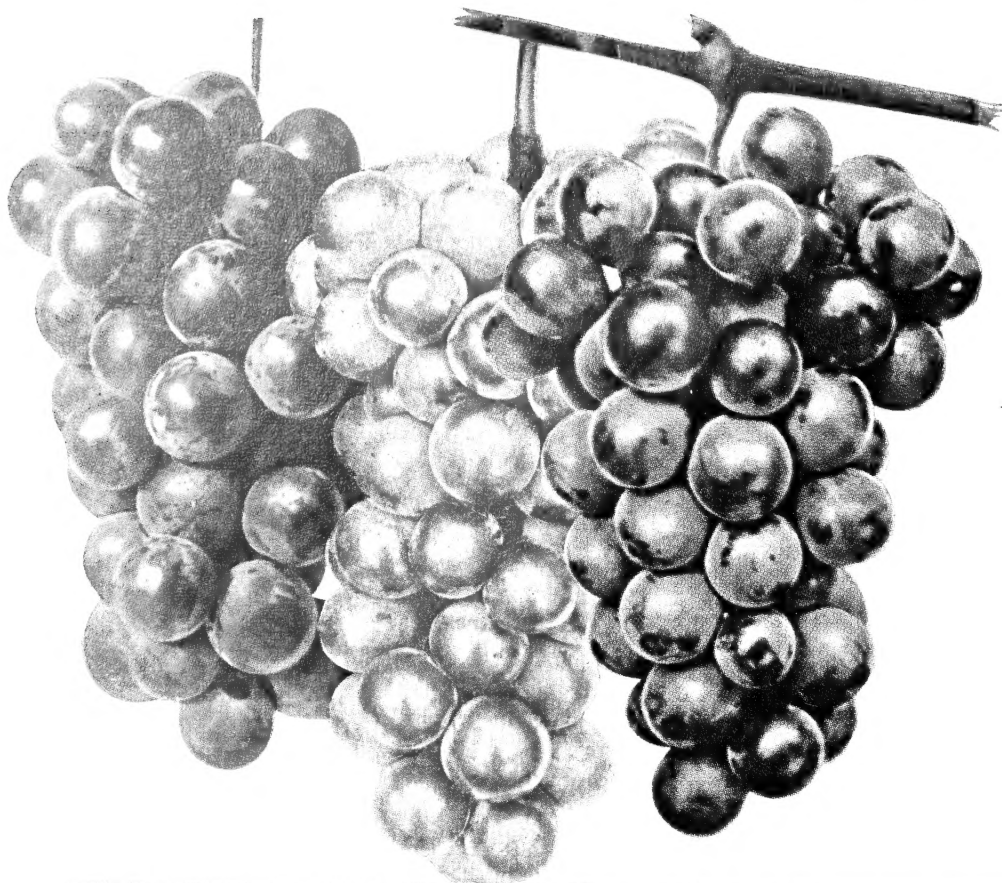

Each \$0.45 3 for \$1.25

CHEERIO. The best brilliant Iris, the falls being rich glowing satin ruby-red with a vivid orange beard. Standards are soft rose flushed yellow. Perfect in every way and a prodigious bloomer. See cut on page 38.

Each \$0.45 3 for \$1.25

El Capitan Iris—Each 45c

Glorious, Immense, Double, Fragrant Blooms

Have flowered already in the nursery row and will bloom for you the next year after transplanting. They grow 6 to 8 feet tall and do not sucker like the old-fashioned Lilacs. One of the finest of all shrubs. Last a lifetime.

We offer them in the colors shown in the cut: Pure White, Wine Red, Bright Pink, or Blue.

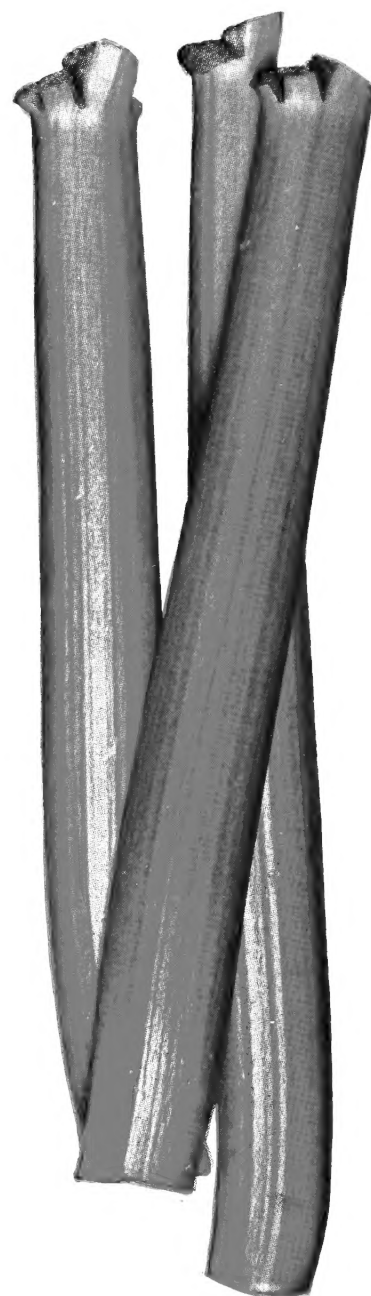

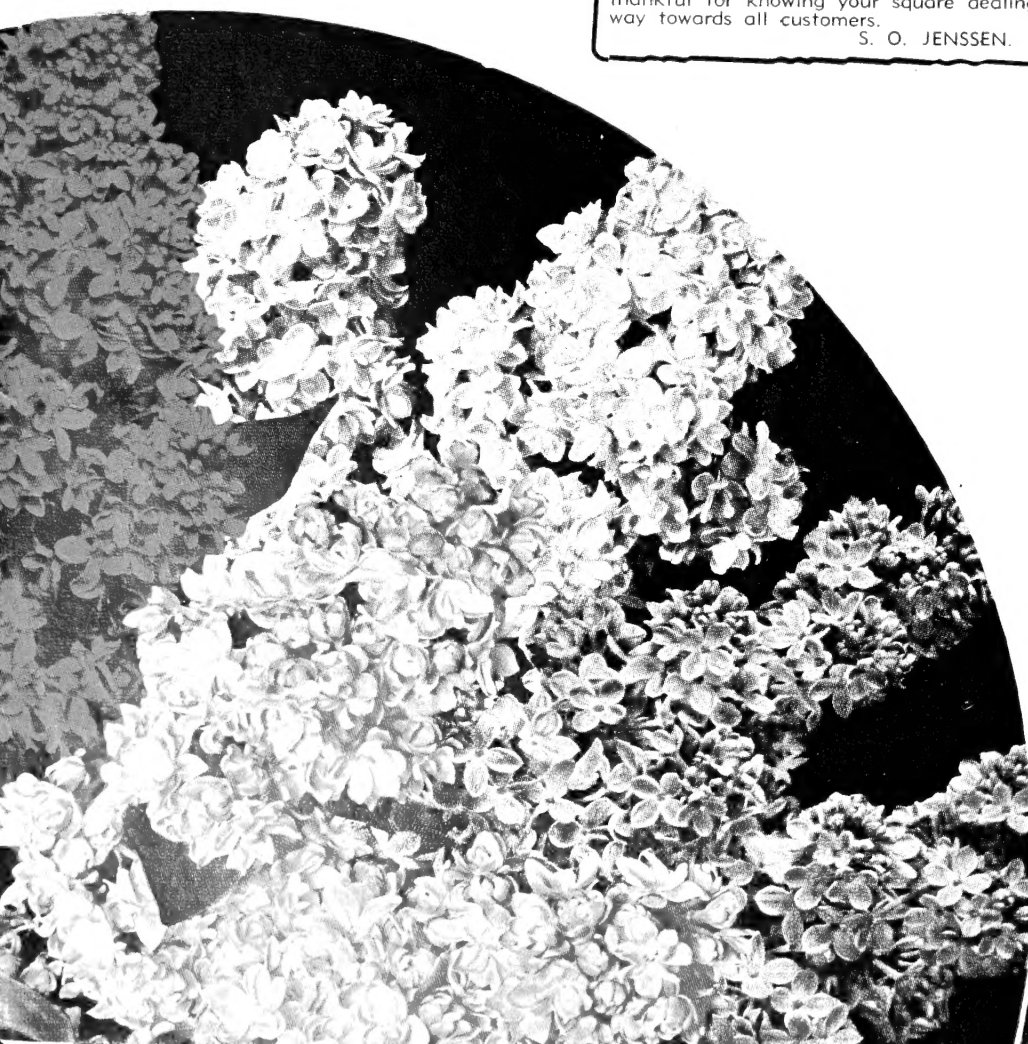

Select, Each \$1.25 Super X, \$1.75

"Yours for Growing Satisfaction"

Coupeville, Washington,
March 22, 1944.

You wanted to hear from me regarding the order I sent you. Received everything as I ordered, in fine shape and am happy I selected your firm for my order. If your stock, berry plants, fruit trees don't grow with such heavy masses of roots, I don't see how anything else will. Everything is priced, too, within reason, so I am very thankful for knowing your square dealing way towards all customers.

S. O. JENSSEN.

Red Rhubarb

MacDONALD. The best large, red Rhubarb with stalks of giant size; tender and sweet, requiring less sugar. Stays tender far into the summer. Can be grown only from divisions, which makes it cost more, but you get the genuine red, giant size, heavy producing strain.

Large divisions: Each, 60c; 4 for \$2.00; 10 for \$4.00.
